UNION REPUBLICAN COUNTY TICKET.

The Union Republican Convention of Allegheny County, yesterday placed in nomination the following ticket for county officers: Prothonotary, JACOB H. WALTER; Treasurer, Major J. F. DENNISTON; Coroner, WILLIAM CLAWSON; Commissioner, ARCHIBALD PILLOW; Jury Commissioner CHARLES PUGH; Director of the Poor, ROBERT H. DAVIS. The candidates for Prothonotary, Coroner, Commissioner, and Director of the Poor are the present incumbents of those offices, and their renomination on first ballot attests that they are faithful and efficient public servants. Major DENNISTON's claims for the nomination of Treasurer, were duly honored, and as he possesses undoubted capability for the office, the people will ratify the almost unanimous choice of the Convention, by a similarly decisive vote. The ticket is a good one, and will of course be elected by a rousing majority.

A SOCIETY is operating in Chicago by which people deposit such sums as they can spare during summer with the corner grocer or druggist, on credit, in pass books, and in winter draw a proportioned amount at cost prices.

THE Michigan Republicans are unanimously in favor of extending suffrage to black men, and the Democrats have not the courage to contest the point while fishing for the votes of black men down South.

The Republicans of Butler county have nominated Mr. James J. McJunkin as their candidate for Assembly—an excellent selection. They have also declared in favor of Hon. H. W. Williams, of this county, for the Supreme Bench.

There are eight candidates for the two Assembly nominations in Mercer county. The names of the late members from that county are not mentioned in connection with a renomination. The County Convention will meet on the 17th inst.

THOSE who have friends on the frontier will be gratified to know that there is no Indian war; that "all the accounts of raids and massacres are pure inventions got up by mercenary rascals on the frontier." Other statements by telegraph, mail or eye-witness may be contradicted, but this is beyond cavil as the Chicago *Times* itself has given the information.

Colonel H. L. Richmond, one of the Crawford county Republican candidates for State Senator in the Erie and Crawford District, withdrew from the canvass on Monday in favor of Colonel McCoy, of Meadville. This, it is said, insures Colonel McCoy's selection by the Republicans of Crawford county, although Senator Lowry expects to secure the delegates in Crawford.

THE New York Co-operative Building Society has three hundred and ninety-seven members with an aggregate capital of $87,000. The Iron Founders of Troy, began in July last with forty-eight members and $55,000 capital. This is limited to $200,000, and the dividends to ten per cent. They kept at work all last winter, during the strikes and claim to turn out more stoves with thirty moulders than other foundries with forty-five.

The Republicans of Lawrence county have nominated the following unexceptionable ticket: For Assembly, John Edwards, by a majority of 429 votes over W. C. Harbison, present member; Treasurer, R. C. Leslie; Sheriff, D. C. Rhodes; Associate Judge, Thomas Pomeroy; Commissioner, John H. Gormly; Register and Recorder, Sylvester Gaston; Auditor, Wm. M. Gibson; Jury Commissioner, Robert Boyd. John Elder, Esq., was chosen delegate to the State Convention and instructed to vote for Judge Pearson. Resolutions in favor of a free railroad law and denunciatory of recreant members of the Pennsylvania Legislature were adopted.

A CONTEMPORARY is shocked at Generals Hancock and Meagher placing the military on a level with barbarians, by fighting Indians on their own terms, and thinks "A little sense at Washington and a little honesty on the part of the swindlers who act as Indian agents, are the only requisites to peace on the plains." This may be true, but if that little sense and honesty are not to be had, it may be difficult to get frontiersmen to permit the murder of wives and children, by these savages, and abstain from the only mode of warfare which has proved in the least useful, in intimidating them.

THE Canadians are determined to make us feel the want of a reciprocity treaty. By seizing our vessels on the St. Lawrence she opens up the old questions of the right to navigate that stream, and disadvantage of having so important an outlet as the mouth of that river on foreign soil. We should seriously deprecate any trouble between the two nations on this or any other question. The United States and the Canadas are so essentially sister countries that neither can sustain a quarrel with the other without a heavy loss. Such treaty arrangements as will prevent collision are indispensable to harmony. We should have some permanent settlement of the right to navigate the St. Lawrence.

THE fare of prisoners in Ireland is—for breakfast, eight ounces of corn or oat meal boiled in water, and a half pint of milk; for dinner, fourteen ounces of brown bread and a pint of milk; supper, there is none. So the commutation of punishment of Fenians from death to imprisonment for life is not so much of a commutation as it at first appeared. There might be a medium between this and Fortress Monroe fare for a nation's guests. Irish laborers get from six to fifteen pence per day, spend most of it for food, sleep often in barns, and are not much encumbered in transporting their wardrobes. No wonder that those who can are coming over.

HORACE GREELEY strikes back at Wendell Phillips for his severe comments on the bailing of Davis. In May, 1865, Mr. Phillips said in Cooper Institute:

"I shall never consent to the death of Jefferson Davis until I fear his life. He is weaker alive, a ridiculous fugitive, than dead and buried in the sympathies of millions. Let him live then. I once said of John Brown: 'Virginia dared not let him live.' No man, with my consent, shall have it to say of this strong, serenely secure nation, 'It dared not let Davis live.'"

No matter what Mr. Phillips, or any other man, said in 1865 or at any other time, Mr. Greeley should have used his utmost influence to have Davis tried, and in his person, have it decided if treason is a crime and deserves punishment; and if the Commander-in-Chief of an army is responsible for the murder of prisoners of war, by his subordinates, under his eye. We suspect that Andrew Johnson has made a catspaw of Mr. Greeley in this whole affair.

FEMALE SUFFRAGE.—During the debate on the Reform bill, in the House of Commons, May 20, Mr. Mill moved an amendment extending the right of suffrage to women. He argued in favor that it was indispensable to carrying out the principle of no taxation without representation. Women had voted in olden times for some counties and boroughs, and all the arguments against such extension were impractical and had their origin in strangeness. To the plea that politics are not a woman's business, he replied that they were the business of but very few men, and no man was held to discharge his business the worse for electioneering or taking an interest in politics, and argued that the unfair discrimination against women in their opportunities for education, for entering into business pursuits, and receiving wages for her work were the direct results of her disfranchisement.

The American Atlantic Telegraph Cable Company, have elected Mr. Haight, President; Mr. Charles L. Frost, Vice President; Mr. Vibbard, Treasurer; and W. O. Stoddard, Secretary. Measures were adopted to commence active operations and have the cable made. This company received the grant from the last session of Congress for twenty years to the coast of the United States, and the Government to pay for all the messages it sends. They also received the act passed by the Bermuda Legislature, and which grants them favorable privileges to land; that Government paying for all messages sent, and the French Government has offered them the grant of land on any part of the coast on liberal terms. This is the only company that has the authority from our Government or the foreign governments to lay and work cables from the United States.

FORTY-EIGHT iron founders in Troy, N. Y., have a capital of $25,000, shares being $100 each—and every member a laborer. While other foundries were without profit last winter, these co-operatives earned $7,000 in wages.

The Purchase of Russian America.

Galveston Police Force Removed for Disloyalty.

Increase of Internal Revenue Receipts.

Mr. Durant Declines the Governorship of Louisiana.

Special Dispatch to Pittsburgh Commercial.

WASHINGTON, June 4, 1867.

Governor Wells's Removal.

The news of the removal of Governor Wells, of North Carolina, did not reach here until this afternoon. General Sheridan did not telegraph to General Grant's headquarters, and the intelligence was not credited until the official order came to the President. The action of the military officials, however, was anticipated somewhat by the government, for the reason that Gen. Sheridan had practically suspended Gov. Wells by the issuance of an order prohibiting him from making any removals or appointments under the State Government without the same being first approved by the General commanding the military district. The Louisianians here who have been urging the President to remove Governor Wells, state that he will certainly revoke General Sheridan's order. They arrive at this conclusion from conversations had with Mr. Johnson on this very question.

The Municipal Election.

The Republican majority in the municipal election yesterday in this city foots up nearly 3,000. It is announced that the election will be contested on the ground of fraud, but the fact that the conservative candidates run behind their own registry will probably indefinitely postpone any such proceedings.

Our Russian Possessions.

A correspondence has just been completed between Secretary Seward and Baron Steckel, wherein the purchase of the Russian possessions has been formally acknowledged by both Governments, although the money has not been paid over, and will not be until an appropriation is made by Congress. The Russian Minister to-day informed Secretary Seward that the officials in Russian America had been instructed to admit all United States vessels to their ports free of duty.

Galveston Officials Removed.

Advices received by the Government, show that General Sheridan has removed all of the police force of Galveston, Texas, on account of disloyalty, and that he has also organized a military commission for the trial of civilians and others charged with crime.

Position Declined.

Gen. Samuel Fessenden, of Maine, and a brother of the Senator from that State, declines the position of Assistant Secretary of the Treasury, which has been tendered him. He prefers his position in the Patent Office.

Honor Conferred.

The Treasury department has received a letter from France, announcing that Alexander Delemar, Chief of the Bureau of Statistics here, had been elected an honorary member of the French Bureau of that name.

Surratt's Trial.

The District Attorney stated to-day that he should proceed with Surratt's trial on Monday, and on the indictment for murder. The witnesses on both sides will number nearly one hundred.

Revenue Receipts.

The rapid increase in the internal revenue receipts, anticipated, this time, are being fully verified. They are averaging a million dollars per day. To-day they exceeded that amount.

Will not Accept.

Thomas J. Durant, whom General Sheridan has appointed Governor of Louisiana, is in town, and states that he will not accept the appointment.

WASHINGTON, June 4.

OUR NEW TERRITORY.

A private letter from Collector Miller of San Francisco, to the Secretary of the Treasury, speaks in high terms of the wisdom of the acquisition of Russian America, on account of unexpected receipts of a miscellaneous character, and from internal revenue towards the close of the small months, and small requisitions from other departments.

THE TREASURY STATEMENT.

The statement of the Secretary of the Treasury for May will show not only a very large currency balance in the Treasury, but a considerable reduction of the public debt.

THE ATTORNEY GENERAL'S OPINION.

In the Attorney General's late opinion, his promise of additional and more practical opinions under the head of Executive and Judicial officers, to be based on actual abstracts in the course of preparation, has been overlooked by many readers in the South, whose letters reach the Attorney General in great numbers, stating particular cases and asking questions which of course he cannot lawfully give particular opinions on. In abundant time for the elections necessary data can be matured, when the supplementary opinion will be promptly promulgated.

INDIAN AFFAIRS.

A private letter received here from Col. Parker, of Gen. Grant's staff, who is one of the Commissioners *en route* to the Indian country, for the purpose of investigating the late Fort Kearney massacre, states on the 26th of May that that officer and Brig. Gen. Sully, of the same Commission, were in Sioux City, Iowa, whence they would leave for the Yellow Stone river. They had been almost constantly on the move. The various statements relative to the hostile attitude of the Indians in the North West receive additional confirmation from Col. Parker.

STATISTICAL.

The monthly report of the Statistical Bureau for May shows the imports for four months ending April 30 to be $132,327,816, and for the ten months of the fiscal year $344,256,545. Domestic exports for four months $183,867,779, and for ten months, $369,503,879, including $176,225,911 of cotton. Exports of foreign merchandise for four months $8,105,080, and for ten months $16,208,045.

INTERNAL REVENUE RECEIPTS.

The receipts of internal revenue to-day were $1,025,033.

ESCAPE OF PRISONERS.

This evening six notorious prisoners, sent to the county jail to await trial, succeeded in escaping. Two were recovered, but the others have not been heard from, although detectives are on their track.

THE NEW GOVERNOR OF LOUISIANA.

Thomas J. Durant, whom General Sheridan has appointed Governor of Louisiana, is in this city, where he has been practicing law. He has been closely and prominently connected with the Southern loyalists who were organized here during the past winter. There is an impression abroad that Durant does not desire the Governorship tendered him, and it is stated on the street he has declined the position. Governor Durant received the first intimation of his appointment through the afternoon papers to-day.

FROM ALBANY.

Organization of the Constitutional Convention.

ALBANY, N. Y., June 4.—The Constitutional Convention assembled to-day. Wm. A. Wheeler, Republican, was chosen President, receiving one hundred votes against forty-nine scattering. The minor appointments were then made, and the rules of Assembly adopted. Mr. Greeley offered a resolution asking of the Comptroller the original cost of canals, including enlargements, &c., cost of superintendents' repairs, &c., aggregate receipts, and income of each canal, &c. It appearing such information was being prepared for the Convention, the resolution was tabled. Mr. Greeley answered Mr. Brooks in relation to a charge of partizan organization of the Convention, saying the Democrats had opposed the Convention, and would oppose any constitution it should make. S. J. Tilden denied that the Democrats had any such purpose, unless as Mr. Greeley seemed to intimate, a constitution was likely to be made which ought not to be ratified.

THE SURRENDER OF QUERETARO.

List of Imperial Prisoners.

Maximilian Not Yet Executed.

He is En Route to Austria.

NEW ORLEANS, June 4.—A telegram from Galveston says a letter was received from Queretaro, date not given, reporting that Maximilian and his principal officers gave up their swords to Escobedo himself, and the entire army of Maximilian, with artillery and ammunition wagons, surrendered. The following chiefs are prisoners: Maximilian, Mejia, Castello, Casana, Campas, and Miramon. The latter was captured in the streets of the city shortly after the surrender. Mendez alone is missing. Over two hundred subalterns were also captured. Maximo Camperes is reported by private letter shot on the 16th. Maximilian had a severe attack of dysentery on the evening of the 15th. Private correspondence from San Luis says he has recovered, and was expected at that city, and it is probable he has ere this crossed over into the United States on his return to Austria. It is rumored Lopez had delivered up Fort Cruz. The official report of Escobedo announces the death of Col. Louis Cavillo, of Toluca, and Col. Miguel Polca Palocio.

SHERIDAN.

Removal of Gov. Wells, of Louisiana

"A Political Trickster and Disunionist."

Thos. J. Durant, a Staunch Union Man, Appointed Governor.

NEW ORLEANS, June 3.—An order was received yesterday from the President, through the Secretary of War, by Gen. Sheridan, directing that all further proceedings in the matter of the Levee Commissioners be suspended; and that Gen. Sheridan report the reasons for his order removing those Commissioners.

Gen. Sheridan, in answer to the Secretary of War in reference to the Levee Commissioners, states as the reasons for abolishing the two former Boards, that the Legislature last winter passed an act continuing the old Levee Board in office, so that four millions appropriated might be disbursed by a Board of rebellious antecedents. After the adjournment, the Governor appointed a Board of his own, in violation of this act, and made the acknowledgement to Gen. Sheridan that his object was to disburse the money in the interest of his own party, by securing for it votes at the time of the election. The old Board refused to turn over its papers to the new Board, and appealed to Gen. Sheridan to sustain it, which he would not do, as the question would then have gone to the courts and taken a year to decide. The State was then overflowed and poor people suffering. To abate this trouble and afford immediate relief, which the honest disbursement of $4,000,000 would give, an order dissolving both Boards was issued.

"I say now, unequivocally, that Governor Wells is a political trickster and a disunionist. I have seen him myself, when I first came to this command, turn out all the Union men who had supported the government, and put in their stead rebel soldiers, some of whom had not doffed the grey uniform. I have seen him again, during the July riot of 1866, skulking away where I could not find him to give him a guard, instead of coming out as the manly representative of a State, and joining those who were desirous of preserving peace. I have watched him since, and his conduct has been as *sinuous* as the marks left in the dust by the movement of the snake. I say again, that he is dishonest."

General Sheridan also immediately issued an order for the reasons set forth above, removing Governor Wells and appointing Thomas J. Durant. The newly appointed Governor is a native of Louisiana, a prominent lawyer and a staunch Union man.

General Sheridan also issued orders removing the Street Commissioner and appointing Wm. Baker in his place. The cause of removal is neglect of duty and the unclean condition of the city.

NEW ORLEANS, June 4.—General Sheridan's removal of Governor Wells is commented upon favorably by the press, and appears to be regarded favorably by the majority of the people. Baker, the newly appointed Street Commissioner, is one of the Registers in the First District.

RALEIGH, N. C.

Ceremony at the Cemetery.

Oration of Professor Swaine.

State Dinner to the Presidential Party.

No Toasting or Speech Making.

RALEIGH, N. C., June 4.—The ceremonies at the City Cemetery in connection with the dedication of a monument to the father of President Johnson, commenced to-day at noon. The monument is a single shaft of red limestone, ten feet high, with an ornamental cap. It bears the following inscription: "In memory of Jacob Johnson, an honest man, beloved and respected by all who knew him. Born ——, died January, 1812, from disease caused by an over effort in saving the life of his friend."

The President and party, accompanied by Gov. Worth, Gen. Sickles, and others, having reached the cemetery in carriages, were conducted to the platform near to the monument. A very large number of spectators were present, all apparently deeply interested in the ceremonies. After preliminary religious exercises, Hon. D. L. Swaine, LL. D., President of the State University, delivered an address in which he traced the history of the city of Raleigh, and in this connection alluded to Jacob Johnson, who by a deed of noble daring, saved from drowning Henderson and Callum, at the ultimate cost of his own life, passing away eventually a martyr to humanity. The orator, among other things, alluded to the fact that three natives of the State of North Carolina, Jackson, Polk and Johnson, had passed from obscurity and poverty in North Carolina to comparative opulence in Tennessee, and then to the highest point of honor in the Union and the world. Dr. Swaine concluded his very able and eloquent address as follows:

Of the history of the son of Jacob Johnson, who commenced life under comparatively unfavorable auspices, this is not a time to speak. The companion of his boyhood, Leonidas Polk, whose character I have attempted to portray, has passed the portals of the grave. The President of the United States is before you, scarcely more time-worn than the Lieutenant General seemed at our last interview. His career in life thus far is one of the most remarkable of any age or nation. His country and the world have decided between the two parties which divided North Carolina and the South. He who achieved success, if not more pure and patriotic, was as brave, as disinterested and wiser than his compeer. The monuments of the sires are before you. The crossed swords may be suspended as a memento of the past and a warning for the future. The blood of the noble heroes on both sides of the conflict will soon form a union in the veins of the descendants of those who met in deadly strife on many a well fought field. The most patriotic hearts north, south, east and west already beat in unison. The time has arrived when patriotism not less than Christianity requires forgiveness of all that we cannot forget. Let the crossed swords of the monument, surmounted by the stars and stripes, form an appropriate memorial association for Confederate and Union dead, and no strife be engendered above their graves, but patriotic and generous emulation to be first and foremost to promote harmony and good will, and restore the Union—that more perfect Union designed by the Constitution of our common country.

The ceremonies closed by the benediction, when two young colored girls came forward and tenderly laid bunches of the choicest flowers on the grave of Jacob Johnson.

The following paragraph was inadvertently omitted in telegraphing the speech of the President yesterday:

"I have come to participate in the ceremonies of dedicating a monument to a man whom you respected, though of poor and humble condition. He was my father, and of him I am proud. He was an honest and faithful friend, a character I prize higher than all worldly fortune which could have been left me."

RALEIGH, N. C., June 4.—The President, accompanied by Secretary Seward, Postmaster General Randall and others, were escorted to the capitol at ten o'clock this morning by Gov. Worth and Gen. Sickles and staff, and a number of prominent military officers and civilians, including the Mayor. The reception took place in the hall of the House of Commons. The visitors, after saluting the President, were severally introduced to Secretary Seward, the Postmaster General and Gen. Sickles. The deaf mutes from the State Asylum were among the many who paid their respects to the President. White and black vied with each other in paying the President every attention and courtesy, and all were received in the most kindly manner.

This afternoon the President and party attended a State dinner at the Yarbrough House. The entertainment was elegant in style. No toasts were drank nor speeches made. The President, in company with Secretary Seward, Postmaster General Randall and others, visited the State charitable institutions in the vicinity.

The Presidential party will leave to-morrow morning to attend the commencement exercises at the State University at Chapel Hill, and may sojourn there until Friday.

Gotleib Williams was executed at twenty-nine minutes past eleven o'clock in the jail yard, Philadelphia, yesterday morning, for the murder of Mrs. Eliza M. Miller, on the 19th of September last. THE OIL COUNTRY.

Letter from the Venango Region.

Past and Present Condition, Moral and Social.

RAILWAY IMPROVEMENTS.

[Special Correspondence of Pittsburgh Commercial.]

There has been a most marked and happy improvement in many respects in this region of Northwestern Pennsylvania within the last two years. Three years since the journey to Oil Creek, or Tidioute, was most hazardous and fatiguing, and equaled in roughness and peril of attack from robbers, that renowned way of travel, the road from Jerusalem to Jericho. On the outer rim of this enchanted region, filled with

"Hydras and Gorgons dire,"

stood such towns as Meadville, Warren, Union and Franklin, and the traveler who was so fortunate as to reach in stage or boat, one of these places, if a man of any prudence, shuddered with apprehension of the perils which confronted him. He was met in the streets and hotels, by explorers who had each a tale of horrors appalling to flesh and blood.

They told of swollen angry streams without bridges; of roads so bad that often an entire day was spent in going ten miles; of sloughs and mud holes bristling with broken wagons and legs of entombed horses; of long lines of oil wagons blocking up all the ways of travel; of the savage manners of the drivers and the delight these barbarians felt in a fight, and in tearing to pieces the buggy of the well dressed traveler, and the country wagon of the plain, quiet farmer. One dilapidated looking individual, covered with mud, without hat, and one skirt of coat gone, told of an upset in a chuck hole of fabulous depth, in which he had left carpet sack, overcoat, &c., &c. Another, with a blackened and bunged up eye, with a nose that hung down like a mass of purple jelley, an upper lip protruding the decrepancy of half his face, and an ear hanging in tatters, told of a terrible fight on Oil Creek in a country tavern, in which, to save his driver from being beaten to death, he bore away these honorable scars. Innumerable were the persons who complained of being robbed of watches and purses; of quarrels compelled for the purpose of knocking them down and then stripping them of clothing and money. "It was a land that eat up the inhabitants thereof."

For years the moral and social condition of the oil country was a foul blot on our civilization. There was no restraint on wickedness. Vice was open and shameless. Abandoned women in hundreds, driven from Buffalo, Rochester and Cleveland; convicts from prisons; pimps, blacklegs, burglars, garroters, and murderers lighted on Oil Creek as a fresh scene for operations, and a delightful retreat from law and police. Bad men banded together and committed every crime. Men were robbed in open day in the public places. Others were murdered in the presence of travelers and citizens. The most outrageous offenses against decency were committed, and yet the guilty went unwhipt of justice. The better disposed were too careless or too busy to attempt to cure what might take time and involve danger.

The condition of society was disjointed and unnatural. Not one man in an hundred laboring or speculating in these regions, had the restraint or comfort of a home, and family. The absence of rational enjoyments, the pressure of wants, a miserable shanty for a dwelling, the daily chafing of passion and interest—all tended to rapidly degrade and imbrute men. In any other country of the world, with such lawless and desperate elements let loose, there would have been far more crime; for in every neighborhood and village there were some good, sober men, and these created a public sentiment to which the greatest ruffians had in a measure to yield.

But in the last three years there has been witnessed a great change, extending to every department of improvement and life. Railroads now penetrate every good oil producing district, and the presence of government and magistry begins to be felt and feared. As railroads in a new and wild land are not only channels of commerce, but highways of civilization and doors of hope for the future, an enumeration of these roads may not be uninteresting to some of your readers.

The Atlantic and Great Western road runs along the northern border of the oil region. The distance from Meadville to Corry is forty-two miles. Four passenger trains pass over this road a day. It is now being repaired, and is safe for travel. The tide of passage along it has increased within the last few months.

The Franklin branch of the Atlantic and Great Western road starts out of the main trunk at Meadville, and runs to Franklin, and then up the Allegheny to Oil City. The length of this road is thirty-eight miles. Three passenger trains run over it per day.

Oil City, situated at the mouth of Oil Creek, is the point of terminus of four roads, viz: the Atlantic and Great Western, the Warren and Franklin, the Farmer's road, and the Allegheny Valley road. The Warren and Franklin starts at Oil City and runs up the shore of the Allegheny river past Oleopolis, Lancaster, Tidioute, and terminates at Irvinton, where it connects with the Philadelphia and Erie road. The length of this road is fifty miles. Twelve miles above Oil City on this road is found Oleopolis. This is the terminus of the Pithole Creek road, which runs ten miles to Pithole City. On this road there is now but little travel. On these roads there are run three passenger trains per day.

The Farmer's road runs from Oil City to Petroleum Center, and up Oil creek a distance of seven miles. Two passenger trains pass each way over this per day.

The Allegheny Valley road is not yet completed, but promises to be one of the best built and popular roads in the country. I am glad to see that the contractors are leveling, or gradually sloping the hills hanging over the road, thus beautifying it and preventing slides.

Franklin is the terminus of another new road, the Jamestown and Franklin road. This road runs up French creek about five miles, and then turning to the left passes into the rich coal fields of Mercer county. Crossing the track of the Atlantic and Great Western about five miles to the east of Greenville, it proceeds to Jamestown. The length of this road is about thirty-five miles. This road is nearly finished. The cars now run a short distance.

The road from Reno to Pithole is no longer in operation. Trains, however, run over the portion of it from Rouseville to Plumer, a distance of three miles, and I learn that the company are taking up the rails and ties of the hill part of the road, viz: between Reno and Rouseville, and laying a track up Cherry Run to pleasantville. This, in all probability, will be a profitable road, for there is opening in the upper part of the valley of Cherry Run a valuable oil field, and new wells are being found.

The most remunerative of all these roads, in this region, is the Oil Creek railroad. They start from Corry and run through a heavily wooded and swampy country for ten miles, and enter the more hilly land of Oil Creek. This road runs past Titusville, and terminates at Petroleum Center. The length of this road is above thirty-five miles. It pierces the center of the richest oil field in the world, bearing North the production of the Stevenson Farm, Funkville, Bennehoff Run, Pioneer Run, Bull Run, and Church Run. A considerable part of the oil of these places is now borne down the creek, and over the Farmer's road, and finds its way to the Pittsburgh market. But this road is now crowded with freight trains conveying oil for the Erie, Buffalo, Philadelphia and New York markets.

The Philadelphia and Erie road, runs along the north-east line of the oil region. The distance from Corry to Warsaw is thirty miles.

The Buffalo and Oil Creek road, connecting at Corry with Buffalo, is now finished, and the cars commenced passing over the track last week. This will shorten the line of travel from the oil country to West New York fully forty miles, and open an important channel of trade.

Those short roads penetrating the oil regions are tributary to some of the great railroads of the country. The Oil Creek road is understood to be a feeder of the New York Central, and the Warren and Franklin of the Pennsylvania Central. The Philadelphia and Erie is controlled by the Pennsylvania Central, &c.

Of the production of these various fields, I will speak in a future letter. J. M.

Hon. L. H. Hiscox, of N. Y. Constitutional Convention, Shot and Killed by Gen. Cole.

ALBANY, N. Y., June 4.—Hon. L. Harris Hiscox, a member of the Constitutional Convention, has just been shot dead at Stanwix Hall, by a man who talks deliberately of the deed, and says he can justify it.

LATER.

The man who shot Hon. L. Harris Hiscox is General Cole, a lumber dealer of Syracuse. About half-past eight Hiscox was standing in the large reception room of the hotel, near the clerk's desk, in his slippers. Cole, who was sitting near by, rose and approaching Hiscox, made some remark, which was not distinctly overheard by those near, and immediately thereafter drew a small pistol and presenting it at his head, fired, the ball entering near the right eye. Hiscox fell back senseless, the wound bleeding profusely. He expired within thirty minutes. Cole remarked that Hiscox had been his best friend, but while he [Cole] was in the army, where he rose to the grade of General in the cavalry service, he had raped his wife and added, "I have the evidence now in my pocket." He quietly awaited the coming of the police, and was conveyed to the station house. A coroner's jury being empanelled, but it is not likely the inquest will be commenced until to-morrow. Cole is a brother of Senator Cole, of California, and is a tall, fine looking man, as was Hiscox, who is larger and heavier.

PENNSYLVANIA RAILROAD FREIGHTS.

Large Meeting of Oil Dealers Yesterday—Resolutions Adopted Asking for the Reduction of Freight on Oil.

A special meeting of the Pittsburgh Petroleum Association was held yesterday afternoon at three o'clock, at their rooms in Dalzell Building, corner of Duquesne Way and Irwin street. The attendance was unusually large, nearly every refiner and oil dealer in Pittsburgh being present. The President, R. W. Burke, Esq., presided, and H. M. Long, Esq., officiated as Secretary.

The minutes of the last meeting were read and adopted.

Charles Lockhart, Esq., from the Committee of Conference in regard to the rate of freight on the Pennsylvania railroad, reported that he had called on Mr. Houston, Freight Agent of the road at Philadelphia, and that he offered to reduce the rate of freights on oil to Philadelphia, but preferred first to hear from the Association, and asked him (Mr. Lockhart) what rate would be acceptable to the refiners. Mr. L. told him that it was the wish of the refiners to have oil shipped at forty cents per one hundred pounds, in order to enable them to compete with refiners in Cleveland, and other places. On motion of Mr. Waring, the report was accepted.

R. W. Burke, Esq., reported that he, in company with Mr. Kirk, had an interview with Mr. J. Mc C. Creighton, General Agent at Pittsburgh, of the Pennsylvania Railroad, and that he (Mr. Creighton) offered a reduction of five cents per one hundred pounds on the shipment of freight. They (Messrs. Burke and Kirk) replied that no reduction less than fifteen cents per one hundred pounds would be acceptable to the Pittsburgh refiners; that Cleveland refiners can "bridge" oil at four cents per gallon, while it costs the Pittsburgh refiners six cents per gallon.

Mr. Forsyth reported that he had a conversation with Mr. Houston, and that the latter seemed to favor a reduction of rates of freights.

Mr. Burke reported that oil could now be shipped to New York, by way of Cleveland, cheaper than by the Pennsylvania Railroad to Philadelphia.

Mr. Kirk also stated the cost of shipping oil from Cleveland to New York was but one dollar and twenty cents per barrel, while the cost of shipping the same from Pittsburgh to Philadelphia was one dollar and eighty-seven cents per barrel.

On motion of Mr. Kirk, the following committee was appointed to draft resolutions expressive of the sentiments of the Association on the subject before the meeting: David Kirk, Charles Lockhart, R. S. Waring, Wm. Forsyth, B. Musgrave, J. Myers and E. Schalk.

The Committee then retired, and after an absence of half an hour, reported the following resolutions for the consideration of the Association:

Your Committee beg leave to report the following resolutions:

WHEREAS, It has become an absolute necessity for the petroleum interest of Pittsburgh and vicinity that a reduction should be made from the present high rates of freight to the East, which is now, by the Pennsylvania Railroad Company, over double the rate per mile charged by the Northern routes, thus building up the refining interest elsewhere to our detriment, and if continued to the entire destruction of the petroleum interests of Pittsburgh, and necessarily a corresponding loss to the Pennsylvania Railroad Company.

Resolved, That a committee be appointed to confer immediately with the officers of the Pennsylvania Railroad Company, to secure a permanent and reasonable reduction in their rate of freights sufficient to enable shippers by their road to compete with shippers of petroleum at other points.

Resolved, That should this committee be unsuccessful in obtaining a sufficient reduction in freights, it is recommended that the committee be empowered to confer and make arrangements with other routes.

On motion of Mr. Davis, the report was accepted, and the resolutions taken up *seriatim*. The resolutions were then discussed separately, and the whole report adopted.

H. M. Long, Esq., offered the following resolution:

Resolved, That, in the opinion of this meeting, the rate of freight between Pittsburgh and Philadelphia should not exceed thirty cents per hundred pounds.

An amendment, offered by Mr. Waring, making the rate thirty-five cents, was lost.

After several amendments and considerable discussion, the resolution of Mr. Long was finally adopted.

On motion of Mr. Davis, the following gentlemen were appointed a committee to proceed to Philadelphia and confer with the officers of the Pennsylvania Railroad Company in regard to the proposed reduction of rates of freight: R. W. Burke, David Kirk, Chas. Lockhart, R. S. Waring, Wm. Forsyth, B. Musgrave, J. Myers, E. Schalk, Henry M. Long, A. F. Brooks, John B. Bell and Frederick Fisher.

On motion of T. W. Davis, Esq., the Secretary was instructed to call upon the former Secretary of the Association, and request of him his written report for the past year.

The Association then adjourned, to meet at the call of the Committee on Conference with the Pennsylvania Railroad Company.

The meeting yesterday was one of the largest assemblage of oil dealers ever held in Pittsburgh, nearly every firm being represented, and the greatest interest was manifested in the subject before them, all being of one mind, that should the Pennsylvania Railroad Company refuse to reduce the rate of freight, they would have to ship their oil by other routes.

A Swindler Detected.

A young man named Isaac Wolff had a hearing before Mayor McCarthy yesterday afternoon on a charge of collecting money under false pretenses. It appears that Wolff has been calling upon the business men of this city for some days past, and by representing himself to be a member of the Hope Fire Company, of Allegheny, has succeeded in collecting a considerable sum of money. Several members of the Hope, hearing of his operations yesterday, traced him to Hand street, where they discovered him in the act of soliciting a merchant for a subscription. He was immediately arrested, and upon being searched a pass book containing the names and amount subscribed by each individual, together with a company circular, authorizing the bearer to collect money to be appropriated towards enabling the company to compete for the prize hose carriage at the Monumental Fair, were found in his possession. Several gentlemen testified before the Mayor that they had paid various sums to Wolff, and it being satisfactorily proven that he was not a member of the company, and had no authority to receive subscriptions, he was held for trial.

Election in Allegheny.

The citizens of the Seventh Ward, Allegheny, (composed of portions of McClure and Reserve townships, which have recently been annexed to the city,) held an election yesterday for members of the Select and Common Councils. Two tickets were in the field, one nominated by citizens favorable to annexation, and the other opposed to it. During the afternoon the vote was about even, but at five o'clock the opponents of annexation rallied their forces and elected their candidates by handsome majorities. The election caused considerable excitement, and general interest was evinced in the result. The following are the figures:

To the Public.

During the Winter I asked and received liberal help for the Lay Missionary's charities to the poor. The funds then given were punctually and most usefully expended. I need now $300 or more to meet the necessary outlays in the Spring and the early Summer months. There has been and is yet much suffering to relieve. I now give the notice of further need which was asked by many who then gave, and was promised by me.

Mr. J. H. Hill, Cashier of the Pittsburgh National Bank of Commerce, corner of Fifth and Wood streets, and Mr. G. T. Van Doren, Cashier of the Tradesmen's National Bank, corner of Wood and Second streets, will gladly receive any funds for this use under my direction.

JOHN B. KERFOOT, Bishop.

PITTSBURGH, June 4th, 1867.

OBITUARY.—N. Buckmaster, Esq., member of the Pittsburgh Bar, died this morning, after a lingering illness, at his rooms No. 72 Grant street, in the sixty-fifth year of his age. Mr. Buckmaster was for many years an Alderman of the Second Ward, but for the past ten or twelve years has practiced law. He was of a genial and kindly disposition, and had many warm and devoted friends who will regret to hear of his demise.

TROT AT PERRYSVILLE.—To-morrow afternoon at three o'clock, a trot will take place at John Carson's track, Perrysville, between Elijah Hall's mare "Sorrel Lady" and John Cridland's bay mare "Gipsey Girl," for a purse of three hundred dollars. The track is in good condition, and should the weather prove fair there will be a spirited contest between these young horses.

Public Amusements.

ACADEMY OF MUSIC.—Mrs. Lander's third appearance in her great historical character of "Elizabeth," attracted an audience last evening fully equal in numbers, intelligence and fashion to that of Monday evening. It is a gratifying fact that the character of the audiences at the Academy of Music since its opening has demonstrated that a first class place of amusement, with first-class performances, can be sustained in this city, and it only remains with the people to render the Academy, as a dramatic temple, a permanent institution. Mrs. Lander's performance last evening, as on previous occasions, was enthusiastically applauded and the excellent support she received from Mr. Taylor and the stock company was highly appreciated. To-night Mrs. Lander will appear in her famous play "Mesalliance," supported by an admirable cast.

A WORTHY BENEFICIARY.—This evening, at the Opera House, Mr. W. M. Ward, who has delighted thousands the past four weeks with his inimitable impersonation of "Von Puffengruntz," will be the recipient of a complimentary benefit. The beneficiary is a talented gentleman, a good actor, and deserving of a full treasury this evening. Mr. W. C. Gallagher, our own American, will appear in his great speciality "Virginius," and the performance will conclude with a mirth-provoking farce.

The Daily Commercial

WEDNESDAY, JUNE 5, 1867.

It has been settled that the impeachment of the President will not be undertaken, a majority of the Judiciary Committee—the two Democrats voting that way—having decided that the evidence does not warrant it. But the Committee have adopted a resolution that ANDREW JOHNSON does not merit the respect of the American people and is unworthy of their confidence. Here ends that chapter.

THE question is asked, what connection is there between the excursions over the rival railway routes in the West, and the expected action of Congress on gifts of land, and other bounties yet to be asked or and proposed? So much traveling, so many excursions, so extraordinary attentions to members of Congress and others of supposed or actual influence, if for no ulterior object, are as unusual as they are pleasant. But *is* there no ulterior object?

THEODORE TILTON is incurring considerable censure for dropping the distinctive character of the *Independent*, as an organ of Congregationalism; and, also, for advocating the licensing of prostitution. The *Independent* being of a religious turn, and having taken that ground, might, without change of base in its operations, go as far as once did the city fathers of the staid old city of Amsterdam, who enacted that inmates and keepers of houses of prostitution, before obtaining license, should be required to bring certificates of a good moral character, of baptism and of having communed in the church. If the business is to be made respectable, the more so the better.

JUDGE KELLEY is reported as saying that the Southern people, excepting a few editors, a good many women, and the stay-at-home men, who kept well out of harm's way during the war, accept the terms of the Reconstruction acts; and that in a general way, matters in the South look better than he expected. Considering the rather brisk introduction the Judge had to the Southern people, it is truly gratifying that at the close of his experience with them, he has so favorable an opinion. We apprehend that with the Southern people, as with certain animals, it depends a good deal on how you take them. At Mobile, Judge KELLEY took them one way and he was shot at. After that he took them another way rather, and he got along smoothly.

ALONG with the reiteration of the assurance as to disarmament, we have the statement the Committee on the French Army Reorganization Bill have agreed to fix the total *strength* of the army for the present year at 800,000. As to this the Paris correspondent of the London *Herald* says:

I confess that this version appears to me quite incredible, as to raise the army to 800,000 the Government would have to call out the reserves and 100,000 men besides. There must surely be some mistake. It is impossible that the Government, at a time when it is professing its pacific intentions, should "for the present year" require a vote of the Chamber for 800,000 men.

The original statement is confirmed by *La France*, which says the number of men named implies a total force of 1,000,000, the necessity for which will have to be known to satisfy the public. However this may be, it is quite evident that the French idea of disarmament means, double the force of the army.

IT is good evidence of the intelligence, independence and stability of the Republican party, and of the individual constituents of it, that the equivocal or dubious movements of some of its conspicuous and influential members do not occasion any serious confusion in the party itself or any visible change in its policy. Mr. JOHNSON's political lapse, immediately after he became, by position, the most distinguished person in the party, did not probably detract, in the least appreciable degree, from its moral power. What may have been lost, in one way, by the secession of the celebrated "Bread-and-butter Brigade," was more than made up in other ways. Mr. RAYMOND and Mr. GREELEY, as journalists, both distinguished and honored Republicans, have, at different times, made some deviations from the established line of party operations, but their changes of base scarcely embarrassed at all the strategy of the Union party, or diminished the successful progress of the campaign for restoring the Union.

THE MEAT WE EAT.

During the last few days the good people of Chicago have been greatly exercised in regard to a report made to the Board of Health concerning the cattle, sheep, and hogs slaughtered in that city and served up as food to the citizens. A private policeman was stationed during four days of last week at the Union Stock Yards who made a memorandum of the cattle, sheep and swine taken from the Yards for consumption. On the first day there were taken to the slaughter house forty head of crippled hogs, two head of crippled cattle (on drays) and ten bulls. By crippled, the policeman stated, is meant those animals which were unable to walk out of the cars, and were hauled out and lifted on drays. Many of these were sick, and in some cases they had to be killed to prevent them from dying before leaving the yard.

On the second day there were sent out fifty-one crippled hogs, one bull, two crippled cattle, eleven head of cattle, all too poor for beef, two of them very lame; one lot of five, three of which were very poor, one crippled steer very badly bruised on the body, and a lot of very poor sheep. Of the hogs, one had just breath enough in its body to live; and these were all that went to market that day.

On the third day, twenty-seven head of hogs were taken to the slaughter house, most of them so badly maimed that they could hardly have survived more than a few hours.

On the fourth day thirty-three hogs, in a condition unable to walk, and a cow very badly injured, and within a day or two of giving birth to a calf, were taken from the pens.

Many of the arrivals at the yards were in such poor condition that to prevent their becoming a dead loss on the hands of the drover, in case of their death before leaving the yards, they were slaughtered as soon as taken from the cars. Nearly always the good cattle were selected from the others and sent East. Scarcely any save "scallawag" and "Kinzie Street" beeves, hogs and sheep ever found their way to the Chicago market.

The statements of the officer are known to be correct. A more nauseating mess than this can hardly be conceived. It is the same every day. Occasionally a marketable animal is sent up, but nearly all the animals able to travel are taken to Eastern cities; and yet, "if the whole truth was known," says the *Times*, "it is doubtful whether there is a stomach in Chicago that would contain its contents for the fiftieth part of a second."

It is no wonder that the people of Chicago are excited over this expose, of which we have given but a mere synopsis, and which nobody has ever before taken pains to make.

Will ever anybody take pains to inquire into the condition of the meats sold in the Pittsburgh market? What if a large portion of our citizens are eating, and have been eating, for a long time back, exactly the same kind of "blue beef," "crippled hogs," and "diseased sheep," that the people of Chicago have! From reliable information we know such to be the fact. The majority of our butchers are generally honest—and regardless of the small profit which they make they never purchase anything but first-class beeves, sheep and hogs; but there is another class of butchers, considerable in number, doing an extensive and profitable business, who all the time have served their customers with exactly the same kind of meats which have been sold in the Chicago market, as noted above. Some of these butchers have been wholesome—diseased throughout. They know it—but they make money on it and that is their object. This is not a new thing; it has been going on for the year past. It is now carried on more extensively than ever. A considerable portion of the meats for sale would be at once confiscated by Health officers if they did their duty. The good cattle are nearly all sent forward to the Eastern markets, and the refuse left for our city butchers and along the route, to feed the people with. The cattle left over and taken to the slaughter houses of a considerable number of our city butchers are bulls and stags, poor cows, old bony oxen, thin and rough steers, cattle covered with sores and crippled from over-crowding in cars. This kind of beef comes out of the oven or off the gridiron blue, of a purple or lead color, and is just the sort we should look for from cattle nearly trampled to death in over-crowded cars.

But we have less to complain of in regard to beef, when we compare it with the other kinds of fresh meats. Much of the pork is exactly similar to that of Chicago. It is taken from crippled hogs, injured in car transportation, dying slowly of fever and disease in consequence, and gladly sold to a certain class of our city butchers at nominal prices; for otherwise they would be a dead loss on the hands of the drovers, being almost sure to die in a short time after having been unloaded from the cars. We have known hogs bought, during the last year, by butchers, that could not possibly have lived more than a few hours at farthest. We have frequently seen hogs bought by butchers, so badly crippled and so sick, that they could not stand or scarcely move. People are somewhat better posted in regard to the immature veal sold in this market, but not near to the extent they should be. Calves have been brought to market that were not a day old, and it is doubtful if some of the veal sold was ever born alive.

Much of the mutton sold last year was from sheep nearly dead with disease. We have heard of a butcher, who, one morning last fall hauled through this city in a wagon, before daylight, (for he was afraid to do it at any other time,) over twenty head of sheep, unable to stand upon their feet on account of foot rot. These same sheep were served up on the next market day and soon disposed of to unsuspecting customers at the same price that would have purchased a first-class article. We have heard of some fifteen head of sheep slaughtered, by this same butcher and some others, last week, every one of them having had a leg broken in car transportation. We could go on and fill columns of facts, in regard to the fresh meat trade, similar to these, and perhaps worse. To sell such meat should certainly be made a criminal offense. It is well established that disease may develop itself in the meat of such animals two hours after they are killed.

Good butchers in our market justly complain of the class of butchers who buy from first hands at a nominal figure, hardly ever more than equaling one-half the price which they would have to pay for first-class animals, while the meat is disposed of for the price of good meat. Whilst reliable butchers make but small profits on their meat, this class of butchers are nearly all the time doubling their money—hence the inducement to continue their nefarious traffic as long as they are permitted to do so, and people will buy from them.

In the face of these facts, and the terrible expose made in Chicago, should not an effort be made here to check this poisoning of our people by mercenary scoundrels, who are making themselves rich by this traffic? How easy, and in the end, how cheap, it would be to have a competent and reliable Inspector of Meats—vested with authority to clear the market of the unsound qualities we have merely alluded to in these remarks. An energetic and faithful inspector of all the animals slaughtered for this market, is the remedy—and the only one that the consuming public demand.

PRIVATEERING.

It is never too late to mend, but one cannot but regret that our English cousins, who have entered on a mision for the abolishment of privateering, had not turned their attention to that department of morals some six years ago, at least. If we recollect rightly, quite a number of most virtuous suggestions on this subject were commended to their consideration, both by the Union press and by the Secretary of State. At that time privateering was likely to come greatly into fashion and favor. Events corresponded to these appearances. English merchants profited by the illicit trade for several years. They and the rebel leaders together have drained all the money from the Southern States, they by contraband trading and the military and civil rulers by oppression and rapacity. Still we are glad to hear a proposition for the abandonment of this sort of conventional stealing. It might come with a better grace from some other source, but we are glad to have it brought under consideration. We do not agree with a contemporary that the question should be postponed till after a European war shall have given us a chance for some retaliatory stealing from British commerce. It is never too early to be virtuous, and the formal delay of improvement till after further wrong doing may be taken as a purpose of indefinite postponement. Go ahead with your palaver, about the relinquishment of privateering.

THE TRIBUNE ON ORGANS.

The *Tribune*, of Friday, in an article on "Parties—Sects—Journals—Organs," gives expression to its views on the latter as follows:

Little great men raised to important stations find organs convenient and their utterances soothing and satisfactory; but that is all. In the long run, the organs are more likely to mislead them or to prejudice their policy than to render them any substantial service. In our judgment, an administration which should resolve at the outset to have nothing like an organ, and sternly adhere to that resolve, would improve its chances of abiding success.

And it is much the same with a great party. The ability of a journal to help it depends on its preserving a substantial independence. When the public comes to know that a journalist will always do and say just what his party is prepared to approve—that he is a mere servitor of party—"not Mr. Buchanan, but a platform"—his support is taken as a matter of course, and carries with it no moral weight. "The ox knoweth his master," is the popular comment on his most fervid and zealous commendations of his party's principles, measures, or candidates.

THE experience of the District of Columbia, is highly gratifying to the friends of the extension of suffrage. A large proportion of the colored people there, were slaves five years ago. Those who were free were the Pariahs of society. The war brought an influx of thousands of slaves, escaping in the most destitute circumstances, from their old homes, and in many cases, compelled to take the place of paupers in their new. Excluded from public conveyances, from all employments, except such as are menial, branded and insulted as they have been in the first years of their freedom, they are now suddenly raised to the dignity of sovereign citizens, and have shown a moderation, an obedience to law, and steady self-respect, which does credit alike to them and the policy which has raised them to their present place. In no other place was there a more bitter feeling of caste against them, and the fact that the late master, the returned rebel soldier, the old slave dealer, the pro-slavery preacher, who have spent their lives arguing the divine rights of slavery, and the ex-slave law, gone, side by side, and deposited their ballots on terms of political equality, explodes forever all the logic about that natural antagonism which was to bring on a war of races, unless the one race were kept under the feet of the other. We congratulate our friends of the District, and the party whose policy is thus triumphantly vindicated on the good order of their election, and on the result—a Republican success.

THE foreign importations at New York last week foot up as follows: Dry goods, $1,232,567; general merchandise, $4,718,148. Total

THE Progressive Friends of Pennsylvania will hold their fifteenth yearly meeting at Longwood, near Hamerton, Chester county, commencing to-morrow, Thursday, and continuing three days. This religious society has no creed, but invites all earnest minded men and women, whatever may be their theological views, to unite with it in works of goodness and mercy. Its meetings are always crowded and exciting. Among those who are advertised to be present this year are the Rev. Robert Collyer, of Chicago, and the Rev. J. W. Chadwick, of Brooklyn.

THERE is a general disposition to make light of the grave labors of the Maryland Convention in incorporating into their proposed constitution their claim of indemnity for their slaves. A contemporary thinks it is as much as if Michigan should make a constitution declaring that the United States owed that State a balance on military expenses. The *Post* should remember that the Democracy of Maryland and all her sister States are at considerable loss to decide what is best to be done under the circumstances in which they find themselves; and if they draw comfort in making constitutions which are bills of indictment, or bills of indebtedness, or bills of sale, or any other bill, it is a harmless way in which to throw off their chagrin.

WE have done a thing with an editorial in a Southern paper which we rarely do with any newspaper article—read it twice over. We read it first for its attractive title, "Obstacles to Amity;" and second, to show it as a specimen of the "fierce for moderation," the "mighty weak" and the "cruel sweet" in the writer's temper and style. The writer, understood to be a new and unpractised editor, burning for peace and good will with the journalistic fraternity in the North, declares that "it is impossible on any ordinary principles to account for the bitterness, the malignity, the foul abuse with which the Northern papers are daily charged as to the Southern States and people," and gently adds that "many of the allegations they make are notoriously false and are known by themselves to be so." "Billingsgate," "brutal threats," "the logic or the faggot and the stake," are the terms by which the writer designates the speeches of the Northern orators who have been traveling in the South and the articles in our Northern journals. When taken as a bid for amity, or as a reproof of coarse and abusive language, this is decidedly funny.

Sunday in London.

The London correspondent of the New York *Times* writes as follows: "As to the people who market on Sunday, it is the only day on which they have leisure and money to make their purchases. A million of people in London never go to church on Sunday. They eat, drink and sleep. For a vast number it is the only day on which they have anything like a decent meal, or any relaxation from their weary tasks. They live in one room, a whole family, they work twelve or fifteen hours a day, they sleep in their clothes on a heap of rags or rags in a corner at night; they live on bread, dripping, herrings, when they are cheap enough, and thin beer or tea, and contrive to have a bit of meat on Sunday. When work is slack they pawn their clothes, or whatever is worth pawning, getting sixpence on one article and fourpence on another, and when this resource fails there is the parish. The great fight is to keep out of the workhouse—to work hard and fare hard, and have their liberty. The workhouse separates husbands and wives, parents and children—and it is the end of hope. Sunday trading bills do not seem all that is needed for such a population. Mr. Hughes estimates the number engaged in buying and selling every Sunday in the metropolis at eighty thousand to one hundred thousand."

THE National Glass Blowers' Convention in session in New York last week, (James Hagan, of that city, presiding, and A. G. Thorburn, of Pittsburgh, acting as Secretary), have adjourned to the 1st of June, 1868. Their object is the formation of a National Union (in which capital and labor are to be combined), to be called the Flint Glass Makers' Union of the United States, for the promotion of their mutual interests. The officers chosen for the ensuing year are as follows: President, James Smith, of New York; Vice President, H. H. Doyle, of Pittsburgh, Pa.; Recording Secretary, W. C. Johnson, of Massachusetts; Financial Secretary, J. T. Jukes, of Kentucky; Corresponding Secretary, Austin Kenney, of New York; Treasurer, Wm. H. Capewell, of Philadelphia.

THE Boston *Post* gets off the following: Congress, in its generosity, provided "a free blow." In section 15 of the new Bankrupt law, inadvertantly, perhaps, but yet with strong evidence of design, it makes ample provision for a jolly *shebang* for the creditors. It relates to the duties of assignees, and concludes by saying: "And the assignee shall keep a regular account of *all money* received by him as assignee, to *which* every creditor shall, at reasonable times, have free resort." Now as *which* must logically refer to the last immediately preceding antecedent, and cannot refer to *assignee*, as Congress didn't probably intend the assignee should be an *animal*, it must be the *money* to which it refers, and so Congress has introduced a license, well known at Washington, allowing parties to help themselves.

THE New Orleans *Tribune* (colored) May 24, inquires "how will colored people vote?" and answers the question satisfactorily to itself by declaring "they will vote the Republican ticket," giving as reasons: "Because they know that by doing so they secure for themselves a just government under which they will enjoy all the rights belonging to American citizens. They will do so because, by means of a republican government they will be able to educate their children, receive justice in the courts of law, enjoy the peaceful occupation and enjoyment of their property, and have all other blessings belonging to citizenship. They will do so because they desire not only to participate in making, but also in administering the government."

THE Paris *Patrie*, in the following paragraph, conveys an intimation about the sale of American iron-clads somewhat different from the received idea on that subject: We have reason to believe that Prussian agents have been despatched to New York with the view of purchasing the iron-clad vessels built during the war in the United States, but which since its conclusion have become in excess of the wants of that country. Among other vessels are mentioned the monitor Onondaga and the armored frigate of 5,000 tons, the Dunderberg. The statement contained in a private dispatch that the latter vessel had been purchased by France is erroneous.

AGENTS WANTED FOR GEN. L. C. BAKER'S HISTORY OF THE SECRET SERVICE. This work embraces an authentic and official account of the hitherto suppressed facts and information obtained by General Baker, during his five years' service as Chief of the National Detective Police. Now that the war is over, the Nation demands this inner history, and as a historian, the author subserves no partisan purposes, but writes the plain unvarnished truth; sparing neither high nor low, Loyal nor Rebel, Statesman nor Convict, civilian nor Government Official; pretentiously justifying his statements with vouchers from the highest authority, imparting thereby a genuine historic value to his startling disclosures. Active, energetic Agents are clearing $200 per month, which we can prove to any doubting applicant. Address P. GARRETT & CO., 702 Chestnut street, Philadelphia.

It accords neither with our taste or our princi to assert that our Files have never been approach by any other manufacturer. The Files must spe for themselves, and those who wish to purch largely are sufficiently wise to accept the evidence the files rather than the assertion of the manuf turers.

The Daily Commercial

GENERAL INTELLIGENCE.

The New York breadstuff market continues agitated. If the importations from California and England are as heavy as they are expected to be in the next fortnight or three weeks a further decline is inevitable. During the current week these importations were as follows: flour, $14,000; grain, $16,000. Total, $61,416.

In Bremen, it is said, a singular custom of taxation prevails. The Government announces the sum that it requires, and a chest is placed in the town house, to which every tax-payer brings the proportion which he judges is right for him to pay. The amount of tax received has never failed to surpass the estimate of the public necessities.

The Moscow *News* gives some interesting statistics respecting the Russian army. It says that at the beginning of the Crimean war the whole military force of Russia consisted of twenty-five divisions, comprising one hundred and twelve infantry regiments, while now it consists of forty-seven divisions, with one hundred and eighty-eight infantry regiments; and that the number of troops in active service, which in 1853 was 580,000, is now 800,000. At the beginning of the present year there were 26,000 officers, 705,799 soldiers, 29,362 *deutschicks* or assistants. According to the calculations made in the Russian War Office, this force may be increased in a very short time to 1,180,000. Besides these, there are 300,000 irregular troops, so that the total military force now at the disposal of the Czar may be reckoned at 1,500,000 men.

It is one of the curiosities of the political situation to see the New York *Tribune* contending that the rebels were not guilty of treason, while the *Journal of Commerce* takes the opposite ground.

California and Oregon are in dispute as to which has the highest mountain in the United States. The contest lies between Mount Whitney, in California, and Mount Hood, in Oregon. Heretofore Mount Whitney has been estimated at 15,000 feet high, and Mount Hood at 12,000, thus making Mount Whitney the loftiest. Some one has lately discovered, however, that Mount Hood is 17,000 feet high, and hence the dispute.

The New York *Tribune*, "by authority," denies that President Johnson has written a letter to John C. Breckinridge, inviting him to return to the United States, but it does not deny that Mr. Greeley has written a letter on the subject.

The *Financial Chronicle* argues that there is no reason to anticipate any trade revulsions this year like those of 1837, '47 and '57. The money market is easy, capital abundant, the currency plentiful, the crop prospects full of promise, railroad earnings increased, and trades people and merchants generally out of debt and ready for anything, while the disbursements from the Treasury will be equal to the receipts.

A company, in Connecticut, are manufacturing toys to teach the art of war, in the parlor. Gun-carriages, guns, caissons, &c., to be limbered and unlimbered, as are those used on the field, and are to add spring guns with India rubber balls.

PERSONAL.

—William H. Langley, Esq., flour manufacturer, of Gallipolis, Ohio, whose failure was announced some three weeks ago, made an assignment for the benefit of his creditors on Saturday last. His liabilities are reported to be about $500,000. His failure is considered a bad one, involving many of the citizens of Gallipolis who had loaned him large amounts of money upon his individual security. David B. Hebard, Esq., a member of the Gallipolis bar, is Mr. Langley's assignee.

—Napoleon's character is thus graphically summarized by an American journalist in Paris: "There is much smartness and dramatic talent in the man, but not one act of his life has arisen from a profound conviction, and he lives in the perpetual presence of appiause, sensitive to every rival reputation, weighing all suggestions not by their rightfulness but by their effect. He can tolerate no critic nor criticism. To foreigners, over whose liberties and properties he has no power, he is very obsequious. To Frenchmen he is always suspicious and despotic. He hates organizations and corporations of all descriptions, burdening them with espionage and imposts; and despairing of popularity with the intelligence and politeness of his realm, addresses himself to the ruder elements of the provinces. that class that is charmed with a turn of rhetoric and a parade of arms. The great capital of the country he has emasculated of all political importance, and striven to excite against it the jealousy of the country. There is not one brilliant pen in France purchased to the empire. To be a literary man here is to be a republican. To be a man is to be ashamed of the government."

—The Buffalo *Express* is responsible for the following: "One of our printers who used to set type in the *Tribune* office, smiled audibly yesterday when somebody wondered that Horace Greeley could be willing to let his name go down to posterity affixed to Jeff. Davis's bail bonds. 'Horace knows,' he says, 'posterity can't read the signature.'"

—Among the incomes in the first district of Cincinnati are Robert Mitchell, $99,900; Edward Sargent, $86,725; N. Longworth's estate, $74,850; Thomas Phillips, $66,116; Oliver Perrin, $63,223; Thomas G. Gaylord, $60,077; George Fox, $50,040; E. Grassell, $56,641; Joseph Rawson, $42,048; Jared Bodman, $38,087.

—Robert Hendershott, well known as the "Drummer Boy of the Rappahannock," eloped from Poughkeepsie, with a rich merchant's daughter, on Friday last. They were married at Newburg. The interesting pair are "scarce 19 years old."

JULES JARED'S

"EMAIL DE PARIS,"

THE NEW

BEAUTIFIER OF THE SKIN

Testimonials from Celebrated Ladies:

The secret of beautifying the Skin being known only to Messrs. Jared & Rene, they honestly state that it differs from all other preparations. It gives to the most harsh and freckled skin both the color and texture of polished ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or black-worm specks, and is especially successful in smoothing out the marks left by small-pox.

The agents of "Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as

Signora Ristori, M'lle Felicita Vestvali, Miss Maggie Mitchell, Mrs. D. P. Bowers, Lucille Western, Mad. Ponisi, Mrs. Emma Waller, Lucy Rushton, Noemie de Marguerittes, Miss Agnes Perry,

And many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.

The beautiful Lucille Western says:

I find that the "Email" produces all the brilliancy of rouge and lilly white, with the great and peculiar advantages of perfect harmlessness. It really adds to the softness and beauty of the skin.

The Magnificent Vestvali says:

I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth.

Miss Maggie Mitchell says:

I have tried the skin beautifier "L'Email de Paris," and found that it instantly imparts a natural bloom and freshness to the complexion.

"Jared Email de Paris" is used as a delicate beautifier of the skin for Theater, Saloon or Ball Room, by the most refined and scrupulous ladies; producing all the beautifying effects of rouge and lilly white, without their vulgar glare or injury to the skin.

Sold by all first-class Druggists, Perfumers and Ladies' Hair Dressers.

The Pittsburgh Trust Company having organized under the Act to provide a National Currency, under the title of the FIRST NATIONAL BANK OF PITTSBURGH, would respectfully offer its services for the collection of Notes, Drafts, Bills of Exchange, &c.; receive money on deposit, and buy and sell Exchange on all parts of the country.

The success which has attended the Pittsburgh Trust Company since its organization in 1852, will, we believe, be a sufficient guarantee that business entrusted to the new organization will receive the same prompt attention.

Government and other Desirable Securities.

No. 5 Nassau St., N. Y.,

Recommend to Investors the

FIRST MORTGAGE BONDS,

OF THE

CENTRAL PACIFIC R. R. CO.

This Company is constructing under the patronage of the

United States Government,

the Western end of the

Great National Railway Across the Continent.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State Line, traversing the *Richest and most Populous Section of California*, and thence through the *Great Mining Regions of the Territories*, to the vicinity of Salt Lake City.

It forms the *sole Western link* of the only route to the Pacific which is adopted by Congress and *aided by the issue of United States Bonds*.

Their road is already completed, equipped and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The First Mortgage Bonds of this Company afford unusual inducements of Safety and Profit to Investors, for the following among other reasons, viz:

First. The rate of interest is *Six per Cent. in Gold*, payable semi-annually in the city of New York.

Second. The *Principal* is payable *in Gold* at maturity.

Third. The cost of the Bonds, *Ninety-five Per Cent.* and accrued interest, is *Ten Per Cent.* less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

Fourth. The *United States Government provides nearly half the amount necessary to build the entire road, and looks mainly to a small percentage on the future traffic for re-payment.*

Fifth. Owing to this liberal provision, accompanied with *Extensive Grants of Public Lands*, by which the Government fosters this great national enterprise, *its success is rendered certain, and its financial stability is altogether independent of the contingencies which attend ordinary Railroad enterprises.*

Sixth. The Security of its *First Mortgage Bonds* is therefore *ample*, and their character for safety and reliability is equalled only by that of the obligations of the *Government itself*.

Seventh. The net earnings of the completed portion are *already largely in excess of the interest obligations which the Company will incur on twice the distance*, and are steadily increasing, rendering the *uninterrupted payment of the Interest absolutely certain*.

Eigth. At the present rate of Gold they pay nearly 8½ *Per Cent.* per annum, on the amount invested.

The Bonds are issued in denominations of $1,000 with semi annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from January 1st.

Orders may be forwarded to us direct, or through the principal Banks and Bankers in all parts of the country.

Remittances may be made in drafts on New York, or in Legal Tender Notes, National Bank Notes or other funds current in this city, and the Bonds will be forwarded to any address by express, free of charge. Inquiries for further particulars, by mail or otherwise, will receive punctual attention.

REPUBLICAN COUNTY CONVENTION.

Nomination of Candidates.

THE RESOLUTIONS ADOPTED.

Full Report of the Proceedings.

The Union Republican County Convention assembled yesterday morning in the Court House, for the purpose of placing in nomination candidates for the offices of Prothonotary, Treasurer, Commissioner, Coroner, a Jury Commissioner and Director of the Poor, to be voted for at the Fall election.

The Convention was called to order by John W. Riddell, Esq., Chairman of the County Executive Committee, who stated that owing to his engagements before the Grand Jury, as Assistant District Attorney, it would be impossible for him to remain, and proposed that a temporary chairman be at once selected.

PERMANENT ORGANIZATION.

Dr. McCandless moved that Thomas M. Marshall, Esq., be elected permanent President. The motion was seconded and carried unanimously.

Mr. Marshall, upon taking the chair, returned his thanks, and stated that the position of Chairman of the Convention, was one not to be sought, nor one to be declined under any circumstances. He remembered some twelve or fourteen years ago, during the excitement in regard to the Fugitive Slave Law, he had attended a good old radical Convention in a neighboring room, and offered a resolution that the party would recognize no law that recognized Human Slavery. He was glad that the resolution was no longer unconstitutional, as slavery no longer existed. Mr. Marshall concluded by again returning his thanks to the Convention for the honor conferred upon him.

The following Vice-Presidents were then chosen: Messrs. Miles S. Humphrey, South Pittsburgh, Samuel McMahon, Lawrenceville; Wm. W. Shaw, Indiana, and Capt. B. L. Woods, Versailles.

CONTESTED SEATS.

On motion of A. M. Brown, Esq., the following gentlemen were appointed a committee on Contested Seats: Messrs. Allen Means, George Perkins, John McKelvey, George F. Comley and George Wilson. The only district contested was Scott township, and the Committee had not reported at adjournment. They however decided to admit the delegates favorable to Mr. Walter.

COMMITTEE ON RESOLUTIONS.

A. M. Brown, Esq., moved that a Committee of seven be appointed to prepare resolutions expressive of the sense of the meeting. The motion was adopted, and the following gentlemen appointed said Committee: Messrs. A. M. Brown, W. S. Purviance, Thomas Steel, George Neely, David Holmes, Wm. E. Harrison and A. D. Anderson.

THE SUPREME JUDGESHIP.

Alex. M. Watson, Esq., moved that a Committee of seven be appointed to wait upon Judge Williams and confer with him in regard to selecting delegates to represent the county in the State Convention to be held in Williamsport on the 17th inst.

A. M. Brown, Esq., favored the motion. Representative men, who could carry with them influence, and who would press the nomination of Hon. Henry W. Williams for the position of Judge of the Supreme Court should be chosen. Judge Williams was an able jurist, and being the choice of not only our own but other western counties, it was desirable that gentlemen should be selected who were able to present his claims in the strongest possible manner.

NOMINATIONS.

The motion was then adopted, and Messrs. A. M. Watson, Col. T. M. Bayne, Capt. H. S. Fleming, W. N. Ogden, Capt. Wm. A. Tomlinson, Capt. David A. Jones and Capt. Casper Gang appointed.

On motion of Jared M. Brush, Esq., the Convention proceeded to select candidates for the various offices. The following gentlemen were nominated:

Prothonotary—Jacob H. Walter, David C. Hultz.
Treasurer—Major J. F. Denniston, Colonel James A. Gray.
Commissioner—A. Pillow, Joseph B. McDonald, John Redpath, S. Milligan.
Coroner—Wm. Clawson, J. G. West.
Jury Commissioner—Chas. A. Pugh, Wm. Graham, John Pair, Captain John Young, Jr., Arthur Kerr, David Sims, James Gracey, George Neely, James Black and Wm. Dunlap.
Director of the Poor—Robert H. Davis, Esq., being the only candidate placed in nomination for this office he was elected by acclamation.

COUNTY EXECUTIVE COMMITTEE.

The Chairman stated that while the Clerks were recording the names of the candidates, it might be well for the Convention to determine the number of persons to compose the County Executive Committee for the ensuing year, and the manner in which they should be appointed. He said that as the Presidential canvass would be commenced during their term, it was desirable that efficient men, who would attend to their duties, should be appointed.

A motion, fixing the number at twenty-five, to be appointed by the Chair, was made and carried. The Chairman stated that he would announce the committee through the public papers at an early day, and requested that members of the Convention would submit to him suitable names at their earliest convenience.

RESOLUTIONS.

A. M. Brown, Esq., Chairman of the Committee, then submitted the following report:

The Union Republicans of Allegheny county, in Convention assembled, do unanimously resolve:

First. That the people of the loyal States, who prosecuted the war for the Union to a successful conclusion and preserved our free government, have the right as well as the power, through their Senators and Representatives in Congress, to determine the conditions upon which the people of the rebellious States shall be permitted to reorganize State governments and exercise the rights and powers of States under the Federal Constitution.

Second. That to permit any of the rebellious States to resume and exercise their former rights and privileges in the Union while refusing to guarantee, by constitutional enactment, to the loyal colored people of such States the enjoyment of all the rights of citizenship, including the elective franchise, would be inconsistent with sound policy, and contrary to the dictates of true patriotism, they having performed well and truly their part in our great struggle for national life.

Third. That it is the duty of Congress so to revise the revenue laws as to afford increased protection to American industry; to secure the development of the industrial wealth of the people; to render labor profitable and remunerative; to build up home markets for our agriculturists; to attract capital to the mineral fields of the country, and to provide revenue for the maintenance of the public credit.

Fourth. That we pledge to the ticket this day put in nomination our hearty support.

Fifth. That our thanks are due, and are hereby tendered to the Hon. James K. Moorhead and the Hon. Thomas Williams for their able, faithful and efficient services as our representatives in Congress.

Sixth. That the Hon. Henry W. Williams, one of the Judges of our District Court, by his long experience on the Bench, his profound learning, sterling integrity, and his unparalleled moral character, is peculiarly well qualified to discharge the duties of a Judge of the Supreme Court, and we do most cordially recommend his nomination for that important position.

The resolutions were read and adopted unanimously.

SPEECH OF GENERAL MOORHEAD.

General J. K. Moorhead, who was present, was called upon for a speech, and was received with enthusiastic applause. The General stated that he had heard his name and that of Hon. Thomas Williams mentioned in the report of the Committee, and from this connection thought it was a vote of thanks to them for doing their duty in Congress. He had received so many favors from the Republicans of Allegheny county, that he hardly knew how to return his thanks. At the expiration of the present term he would have served ten consecutive years in Congress, and he felt it to be his duty to state that he would not be a candidate for re-election. During his entire occupancy of the position he had endeavored to render satisfaction to his constituents, and while an abler man might be chosen, none who would labor harder and more earnestly to advance the interests of country could be selected. The General spoke warmly in favor of protection to American industry, and concluded by pledging his hearty support to the ticket about to be placed in nomination.

STATE CONVENTION.

Alex. M. Watson, Esq., from the Committee appointed to confer with Judge Williams in regard to the selection of delegates to the State Convention, reported that they had agreed upon the following names:

Senatorial Delegates—Thomas M. Marshall, Esq., Hon. Samuel A. Purviance.

Representative Delegates—Messrs. Stephen H. Geyer, Hon. John M. Kirkpatrick, A. M. Brown, Solomon Schoyer, Jr., B. F. Lucas, and Hon. James L. Graham.

The report was accepted, and the gentlemen named as delegates unanimously elected.

The delegates then proceeded to mark for candidates with the following result:

The Late Lieut. Col. Wm Riddle.

In yesterday's papers, the death of Lieut. Col. Wm. Riddle son of the late Robt. M. Riddle, of this city, was announced. It seems Col. Riddle's death, which took place at his mother's residence in Philadelphia, was the result of violence, received at the public house of David Ovens, a district assessor, on the 7th of May. A difficulty arose about a hasty word spoken by some person in the room, during which Col. Riddle was struck upon the head with a "billy," causing his death on Saturday, June 1st. The Philadelphia *Bulletin*, of Monday, has the following editorial relative to Col. Riddle:

The death of Colonel Riddle will be a source of grief to a large number of persons. He was one of the young soldiers of the late war. Born of a well-known Pittsburgh family, he joined the regiment of Pennsylvania Reserves from that city, under Colonel Simmons. His services from the very outset were marked by distinguished gallantry. After a short experience of the Peninsular campaign, he was taken prisoner and sent to Libby. The story of his escape was a wonderful one. For seven days his endurance, his pluck and his perseverance supported his comrades in terrible hardship and in unremitting vigilance, and brought him into our lines again. This event, as much perhaps as his earlier achievements, was the cause of his being selected by General Reynolds for one of his personal staff. With that gallant officer he served in every campaign and in every action, and at Antietam, where Reynolds was not actively engaged, (he was then in command of the Pennsylvania militia) Colonel Riddle served on the staff of General Meade. His wound received in that action, and his splendid conduct, led General Meade to take him on his staff, after the death of Reynolds at Gettysburg. From that time his services at army headquarters were well known, and rewarded by a succession of brevets, and by generous praise from General Meade, when broken health compelled Colonel Riddle to leave the field.

On his return to civil life, Colonel Riddle made Philadelphia his home, and the same charm of manner and disposition which had made him such a favorite in the field, secured him a large share of social success here. Handsome alike in face and figure, carrying with him to the grave the scars of his battle wound, and showing in his attenuated form, the hard struggle that he had for life against camp fever and Peninsular agues; graceful, affectionate, the life of every little or great circle in which he was brought, he has died at a time when he was beginning to find himself thoroughly at home among us, with a future that seemed to ensure everything that he could wish, fairly opened to him. With the modesty of a truly brave man, he was the last to speak of his services or his experiences in the field; and to many of his acquaintances in civil life, very little was known of his merits as a soldier. It is, however, to his comrades in arms that his death will perhaps bring the most lasting sadness—next at least to that family circle in which even now no memory of what he was can bring comfort for his loss. To have met death in every form; to have outlived his Colonel, his General and his friends, who fell in battle; to have overcome disease incurred in service, and now to yield up his life to the imperfect civilization of the city in which he sought his home, will add bitterness to the blow. His memory will be tenderly cherished as that of a gallant soldier who served his country bravely and well.

United States District Court—Bankruptcy Branch—Hon. Wilson McCandless, Judge.

Although Saturday was the formal opening day for business of the Bankruptcy Branch of the United States District Court for this district, there was no business brought before it. Yesterday, however, the first case was presented by Hon. S. Newton Pettis, of Meadville, from the Twentieth District. Mr. Pettis presented the petition of De Forrest Weed and Wm. A. Keeler, and Booth, Peck & Curtis, of New York, to compel Wm. S. Winsor, of the city of Titusville, Pa., to go into bankruptcy for the benefit of his creditors. The petition was filed and a rule issued upon defendant to appear before the court on June 12th, and show cause why the petition should not be granted.

The manual of the rules and regulations and mode of procedure has not yet been received, and the business of the Bankruptcy Court will for the present be confined to receiving petitions and giving necessary information to interested inquirers.

The following Registers have filed their bonds and taken the oath of office, in the order named:

Twenty-second District—Samuel Harper, Pittsburgh.
Twenty-first District—John N. Purviance, Allegheny.
Twentieth District—L. D. Rogers, Franklin.
Twenty-fourth District—J. B. Donley, Waynesburg.

Where there is more than one District in a city, as in New York and Philadelphia, it is said that each Register may have jurisdiction in cases out of his immediate district. This, however, does not apply to Western Pennsylvania, each Register being confined to his own District.

ANOTHER MAN FOUND DROWNED.—Two men, while searching for the body of Mr. Thomas's child, who was drowned in the Allegheny river, near Lawrenceville, on Monday evening, grappled the body of a drowned man. With considerable difficulty they secured the corpse, and placed it on the beach. Alderman Butler, of the Sixth ward, was summoned and held an inquest on the body yesterday morning. A verdict of "found drowned" was rendered. The deceased was unknown, and no information as to his identity could be found. The man, when found, had his hands clasped above his head, evincing distress. His head, body and arms were uncovered but upon his limbs the pantaloons and boots still remained. He had apparently been in the water for a long time, and was very much decomposed.

OUT OF DANGER.—Mr. S. Hamilton, who had his left leg so severely injured by being caught in a circular saw, is pronounced by his physician, Dr. W. S. Huselton of No. 67 Federal street, to be out of danger. Mr. Hamilton has been removed to No. 26 Ann street, where he would be happy to see his friends. Dr. Huselton has been in this city but a short time, but this proof of his skill will recommend him to all who knew the condition of his patient when given to his charge.

NEW CHURCH EDIFICE.—The First German Lutheran congregation, which formerly worshipped in the church at the corner of Wylie and High streets, have purchased an eligible lot on High street, between Pennsylvania avenue and Wylie street, and propose to commence the erection of a new church edifice immediately. The church, it is expected, will be completed and ready for occupation by the coming fall. The building will cost eighty thousand dollars.

THE NICHOLSON PAVEMENT.—The Nicholson pavement, being laid down by the Pittsburgh, Fort Wayne and Chicago Railway Company, around their new building, has been completed on Wayne street, and commenced on Penn street. As a consequence of the necessary tearing up of the street, the running of the Citizens' Passenger Railway cars has been interrupted temporarily, and passengers have to change cars at Wayne street.

THE FENIAN PICNIC.—At the Fenian Picnic, held at Glenwood on Monday, a contest for a silver cup for the best jig dancer took place, and was participated in by Messrs. McGowan, Kelly and Harains. The referee, Alderman Lynch, decided in favor of Edward McGowan, of the Third ward. The squad of twenty-five Fenians, fully armed and equipped, who came from Youngstown, Ohio, to attend the picnic, returned home yesterday afternoon.

NEW ENCAMPMENT.—A new encampment of the Independent Order of Odd Fellows, named in honor of Robert Blume, the German patriot, was organized in East Birmingham, on Monday evening. After the ceremonies attending the organization were concluded, the members adjourned to Messner Hall, in Birmingham, where they partook of a bountiful collation and listened to inspiriting vocal and instrumental music.

PERSONAL.—B. F. Jones, Esq., one of the editors and proprietors of the Jackson, Mississippi, *Clarion*, is at present in the city on a business visit. The *Clarion* is published daily and weekly, and is the official journal of the city and State, enjoying a large circulation which extends throughout Mississippi, Alabama, Arkansas, Louisiana and Tennessee. It is, therefore, a most excellent advertising medium.

THE VIRGIN ALLEY SEWER.—The work of constructing the Virgin alley sewer, between Wood and Smithfield streets, was commenced yesterday, and the alley will be closed to travel until the sewer is completed. The crossings of the alley at Wood and Smithfield streets, will also be obstructed to travel for a few days.

I. O. OF G. T.—The Grand Lodge of the Independent Order of Good Templars of Pennsylvania, will meet in Mozart Hall, this city, on Wednesday, 11th inst., at half-past ten o'clock A. M. A large number of delegates are expected to be present.

ICE PITCHERS! ICE PITCHERS.—The "Heated Term" is close at hand. Go to R. E. Breed & Co.'s China warehouse, No. 100 Wood street, and buy yourself an Ice Pitcher.

THE ANCIENTS desired "locks bushy and black as the raven" as one of the perfections of manhood, and tresses long, silken and lustrous as the crowning beauty of womanhood, but Time, the sly old dog, drew his fingers through their hair and left "His Mark" in white. Time is now baffled by those who use Ring's Vegetable Ambrosia, the greatest and most reliable Hair Restorative of modern times.

SHETLAND SHAWLS, on west corner Market and Fourth streets, No. 69. Prices very low. Gardner & Stewart.

ANOTHER CURE OF DEAFNESS.—I lost my hearing during the last year. Part of the time I was totally deaf. In April of this year I was induced by an advertisement to make application to Dr. Keyser, 120 Penn street, Pittsburgh, after having tried various medicines and Doctors, without any benefit. I have been under Dr. Keyser's treatment now for nearly two months, and am entirely restored to my hearing so that I can hear a pin drop.

"Attempt the end, and never stand to doubt;
Nothing's so hard but search will find it out."

This was the motto of Mr. Barrett, when seeking to discover a Hair Restorative which would not only restore grey hair to its natural color, but would also prevent it from falling out and serve the purpose of a splendid dressing as well. Procure a bottle of "Barrett's Vegetable Hair Restorative," and see how competely his efforts have been rewarded.

Zimmerman's Patent Steam Cooking Apparatus, for Cooking all Kinds of Vegetables and Meats.

Yesterday afternoon we dropped into Messrs. Roberts & Sherratts', No. 61 Smithfield street, for the purpose of personally inspecting Zimmerman's patent Steam Cooking Apparatus. This steamer is one of the greatest inventions for cooking ever produced, and is creating a great revolution in every culinary department into which it has found its way. Every household ought to be provided with one. For the "heated term" now approaching they will be invaluable. *All kinds of vegetables, salt and fresh meats, poultry, &c., can be cooked at one time, together. And at the same time steam puddings, dumplings, &c., without flavoring each other.* This steamer saves labor, fuel and time.

Cooking can be done in less time than it takes in any other way. The steamers are made of several sizes for family use, also for saloons, eating houses, hotels, boats, vessels, etc., and can be used on any kind of cooking stoves. It does away with the offensive odor in cooking cabbage or vegetables. The articles cooked are more tender and have a superior flavor to those cooked in an ordinary steamer, boiled or baked, as any one can readily discover. Turkeys, geese, beef or mutton cooked by this apparatus, for about forty or fifty minutes, or till nearly done, and then put into the even for ten or fifteen minutes, will convince any one of the merits of this invention. While the vegetables and meats are cooking, the *nicest soup* is being made in the lower dish, and only needs seasoning to be ready for use. The steamers are very *cheap*, so that every family can be provided with one. Among those who know its value by practical experience, we can name the Rev. Alex. Clark, A. M., John Marshall, D. B. Furguson, T. H. Rattigan, His Honor, Mayor McCarthy, S. H. Rial, of Merchants' Hotel, etc. We cannot say too much in favor of the advantages of this new cooking apparatus over all others for culinary purposes. All kinds of vegetables, pork, salt and fresh meats, poultry, etc., can be cooked together at the same time, and the flavor of one will not permeate the other, and no offensive odor is noticed in the room. They are made by Roberts & Sherratt, No. 61 Smithfield street, from whom *only* they can be obtained. Call and examine them. You will be fully satisfied of their merits. *A few County rights in Pennsylvania for sale.*

FINANCE AND TRADE.

TUESDAY EVENING, June 4, 1867.

Money is undoubtedly tight. This is evidenced not only in the difficulty experienced in getting bank accommodations—none but strict customers getting served at all—but in all the usual transactions of trade. Debtors of all classes are apt to avail themselves of temporary excuses in order to postpone a little the period of payment. "Cash" transactions are strained a little, with a mutual spirit of accommodation, and business men seem to have a fellow feeling for each other in the general stringency.

But few local stocks are offered, and these only of the best classes, such as may be realized on at once. Even of these, holders part with only enough to enable them to meet pressing wants, as prices must appreciate with the first reaction in money matters. The following sales, at McIlwaine's, took place this evening:

Tradesmen's National Bank	$111 00
Bank of Pittsburgh	64 00
German Insurance Co	32 00

—The New York money market is not characterized by any positive stringency, although the call rate is advanced, as we stated yesterday to 7 per cent. on collaterals. This advance is attributed to the absorption of currency by the Sub-Treasury in preparation for the payment of the June and July interest on the Seven-Thirty loan and the redemption of the compound interest notes. The *Herald* says: About a hundred millions of the latter mature during the present year, and the Treasury has authority to issue only fifty millions of new three per cent. certificates in exchange therefor, the balance having to be provided for in currency or by an issue of fresh compound interest notes. As it is a matter of great importance to the Treasury, however, that monetary ease should be preserved without interruption at this center, it may be considered certain that stringency will be avoided, although a healthy activity may give employment to the volume of funds seeking such. As yet the internal exchanges are still in our favor, but it is reasonable to suppose that the current will set in the opposite direction when the crops are ready to be moved; but should these prove abundant, as they are likely to do, such an impetus will be thereby imparted to trade that the benefits arising from this will more than counteract the effect of increased monetary activity in Wall street. We have already seen that a cheap money market does not necessarily impart buoyancy to securities, and we have frequently seen stocks advance in the face of positive stringency. What is most wanted to promote a rise is speculative feeling and capital on the bull side. For several months past the market has been tame, and has at the same time had little or no outside support.

—A dispatch published in the Chicago papers and republished by us, about the Second National Bank of St. Louis, caused considerable sensation. The following is the correction published in Chicago:

"ST. LOUIS, June 1.

"H. M. HOLDEN, Cashier:

"Base falsehood; no truth in the item; sound as a nut; no run; no signs of it; no cause for it. E. D. JONES, Cashier."

—The Bank statement, as anticipated, is an unfavorable one. The deposits show a decrease of $3,200,000, which, considering that the specie deposits have increased $500,000, is equal to a decrease of $3,700,000 in currency deposits. The Legal Tenders show a reduction of $2,100,000, or but little more than half the decline in deposits. The loans have been reduced $3,300,000. The statement shows a decidedly closer movement, and accounts for the partial stringency developed toward the close of last week.

—The advance on Five-twenties at London has strengthened the market for Governments here and prices are firmer. At present the difference in quotations at London and New York is not sufficient to induce any free operations on immediate account; there is, however, a disposition to buy upon the supposition that prices will steadily advance.

—There is considerable diversity of opinion as to the course the gold premium should take, some maintaining that a large amount must yet be exported, while others say that the sales by the Treasury will keep the price down, and that the low rate of interest in Europe will tend to cause balances to accumulate here.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, TUESDAY EVENING, June 4, 1867.

There was considerable activity, to-day, in some branches of our general markets. There was considerable stocks of some articles on hand, and dealers are anxious to realize at a reduction in prices from that which they have been heretofore holding at. Some flour dealers are compelled to sell at less than the prices they paid. We again reduce our quotations on flour, from those given in this morning's issue, from 25@50c ⅌ bbl. At the reduction the trade was brisk.

The receipts of some of the leading articles of produce, per river and rail, since the 1st inst., were as follows: Flour, 841 bbls; apples, 35 bbls; cheese, 284 boxes; corn, 4,229 sacks; barley 138 sacks; wheat, 150 sacks; rye 1,438 sacks; oats, 1,112 sacks, and butter 90 packages.

We quote as follows, which are the wholesale prices, unless otherwise stated:

ASHES—We quote pearls at 14c; soda ash at 5½c, and potash at 8½c ⅌ lb.

APPLES—Small sales were made of choice at $9 00@10 50 ⅌ barrel. The market is nearly bare of choice articles.

APPLE BUTTER—We note small sales of packages at 75 ⅌ gallon.

BUTTER—The market is very dull. A great deal is coming in in bad condition, and holders are glad to get rid of it at 10@15c ⅌ lb. The best roll is not quotable, from store, at over 18@18c ⅌ lb.

CHEESE—We quote W. R. at 14@16c and Goshen at 20c ⅌ lb. Sales reported of 10 boxes W. R. at 16c, and 12 boxes do at 14@15c ⅌ lb.

EGGS—There is but a limited stock on hand. We quote them in demand at 17@18c ⅌ dozen.

DRIED FRUITS—Apples and peaches are a drug on the market and prices nominal. We quote sales of 600 lbs peaches, mixed, halves and quarters, at 14c ⅌ lb. Apples may be quoted at 7@9c ⅌ lb.

FLOUR—There has been another "tumble" in prices of from 25@50c per bbl, since our last. The local trade, however, is brisk at the decline. Good brands of Spring were selling to-day at $12@13 50 ⅌ bbl; medium grades but little called for; a few sales were made at $12@12 25 ⅌ bbl. We hear reports of the same brands of flour selling to-day at $11 50, which a few days since brought $13 50 ⅌ bbl. Winter wheat flour is in but little demand—dealers holding good brands at $15 25 ⅌ bbl.

CORN MEAL—We quote $1 10@1 15 ⅌ bush.

GRAIN—No reported sales of wheat. Prices are nominal and not quotable.

OATS—We note sales of 1 car, in elevator, at 70c; 1 car, at depot, at 66½c; 120 bush on the wharf at 70c; 125 bush in depot at 70c, and 60 bush from store at 70c ⅌ bush. The market is weaker.

CORN—Market dull. Ear is held to-day at 90c, and shelled at 90@95c ⅌ bush. Offers were made to first hands at 85c for shelled and 80c for ear.

BARLEY—No sales reported for some time past.

RYE—Sales from the wharf were made at $1 65 ⅌ bush.

HAY—Sales were made on the wharf of a fair article at $23 ⅌ ton. The receipts, per country wagon, have largely increased, and prices may be quoted at $20@25 ⅌ ton. The market is rather dull.

POTATOES—Market rather better supplied, and prices are on the decline. We quote peachblows at $1 10 ⅌ bush and $1 ⅌ bush.

SALT—Sales of Pomeroy salt, on the wharf, at $2 25 ⅌ bbl, and Pennsylvania at $2 40, in depot, and $2 50, delivered.

PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL, WEDNESDAY, June 5, 1867.

Business since our last has presented but few changes worthy of notice. Dullness was the ruling feature, buyers and sellers being apart in their views. The receipts of Crude since our last were 2,021 barrels. The stock on hand is not large, but is sufficient for present purposes. Refiners have an ample stock on hand, and are not purchasing to any extent. A sale of 2,800 barrels was reported at Oil City to a Pittsburgh dealer, at $2 50 per bbl. That would seem to be the current rate at that point. The sales reported since our last, reach 6,000 bbls, in lots, as follows: 2,000 bbls, bulk, on the spot, 6¾c per gallon; 2,000 bbls, bulk, deliverable after June 20th, at 7¼c; 2,000 bbls do, deliverable after July 18th, at 7¾c. Prices of course were governed by the gravity.

REFINED OIL—The market was without change as regards prices or demand. The sales reach 2,000 barrels, delivered in the following order: 1,000 bbls, bonded, Standard White, Philadelphia, B. O., 29c; 500 bbls, bonded, S. O., June, Philadelphia, Standard White, 29½c; 500 bbls Standard White, on the spot, 31½c, Philadelphia; other lots were under negotiation, but had not been consummated up to the close.

LIVE STOCK MARKETS.

CHICAGO.

The receipts of cattle for the present week were 8,512 head, and the shipments 4,653 head. The *Republican* says that Saturday night last closed exceedingly active, and, to drovers, decidedly the most profitable market week of the season. The tenor of the Eastern advices received each day were favorable, the receipts of stock liberal, the attendance of buyers excellent, and sellers experienced no difficulty in disposing of their offerings at an advance of [illegible] ⅌ 100 lbs over the closing range of last Saturday. The bulk of the shipping offerings of prime to choice grades were taken for Albany, New York and Buffalo, at prices ranging from [illegible] 9 87½; in some few instances, extremely choice droves were closed out at [illegible] lbs. Common to medium grades were [illegible] for Pittsburgh, Boston, Cleveland and Toledo, at a range of from $7 75@[illegible]. For stock cattle there was a good demand throughout the week, and the offerings of such were taken up principally by feeders from New York, Pennsylvania and Ohio, at $6 80@6 75, the outside for really choice heavy lots. Butchers' stock was in much larger receipt than last week, yet, under a healthy local demand, the sale yards were well cleared on Saturday at $6 75@7 87½. On Wednesday and Thursday several droves of extra quality were taken by local men at [illegible] ⅌ 100 lbs, but the general market could not be quoted above $7 87½. Very common grades, such as old oxen, thin cows, [illegible] steers and scalawag bulls, were taken up by city butchers and others, ranging from $5 75@6 50. On Saturday the market was quiet, there being a very light supply of stock on sale and very few buyers in attendance. The entered sales foot up 864 head, which were taken, mostly in small lots, by feeders, city butchers and speculators. The closing prices of last evening ruled weak, yet no decided decline was suffered. About 120 head, principally butchers' stock, remain over unsold.

The best informed men in the sale yards are of the opinion that ruling prices of the past week, extreme as they may appear, will be fully sustained next week, unless there happens to be an enormous heavy supply of stock, in which case a slight decline must follow:

The following are the rates of live stock freights over the various Eastern railroads:

By the Michigan Southern and Grand Trunk, 30c ⅌ 100 lbs, and passes; by the Michigan Central and Great Western to Suspension Bridge, 30c ⅌ 100 lbs, and return passes.

To Buffalo, by Michigan Southern and Lake Shore, 30c ⅌ 100 lbs, and no return passes.

By the Pittsburgh, Fort Wayne and Chicago road to Pittsburgh, 30c, and no return passes.

CATTLE QUOTATIONS.

First Class—Embracing really choice steers and spayed heifers, averaging from 1,300 to 1,450 lbs, may be quoted at $9 62½@9 87½
Second Class—Embracing straight, smooth, well-fatted steers and spayed heifers, averaging from 1,200 to 1,300 lbs, may be quoted at $9 00@9 50
Third Class—Embracing steers and spayed heifers in pretty good condition, averaging from 1,000 to 1,200 lbs, with no rough cattle among them, may be quoted at $8 50@8 90
Fourth Class—Embracing fat steers, averaging 1,000 to 1,100 lbs, may be quoted at $7 75@8 25
Fifth Class—Embracing good butchers' and packers' and stock cattle, averaging from 1,075 to 1,125 lbs, may be quoted at $7 40@7 87½
Sixth Class—Embracing light stock steers, averaging from 800 to 900 lbs, may be quoted at $5 80@7 35
Seventh Class—Embracing good, smooth fat cows, weighing from 1,000 to 1,100 lbs, may be quoted at $7 25@7 75
Eighth Class—Embracing fair cows, in medium flesh, weighing from 850 to 1,000 lbs, may be quoted at $6 62½@7 20
Ninth Class—Embracing light cows, scalawag steers, stags, and bulls, may be quoted at $5 75@6 50

HOGS—The receipts during the past week were 27,445 head and the shipments 23,785 head. The market has ruled rather quiet throughout the week, and prices ruled 50@75c better ⅌ 100 lbs on all grades below the closing range of this day last week. The bulk of the sales were made to New York, Buffalo, Pittsburgh, Boston, Baltimore, and Philadelphia men. To-day trade was tolerably active for Saturday, and the closing prices of last night were well sustained on all sales reported. The entered sales amount to 2,161 head. It is generally believed that the receipts next week will be light, and it is highly probable that the Eastern markets will exhibit more activity, it is likely that the decline suffered this week will be partly if not entirely overcome. About 3,500 hogs remain over unsold. We report the market steady at the following quotations:

HOG QUOTATIONS.

First Class—Including extra prime, fat hogs, averaging from 225 to 280 lbs, may be quoted at $6 15@6 30
Second Class—Including coarse, fat hogs, averaging from 200 to 250 lbs, may be quoted at $6 00@6 12½
Third Class—Including good sound, even hogs, averaging from 165 to 195 lbs, may be quoted at $5 80@5 95
Fourth Class—Including mixed, uneven hogs, averaging from 165 to 195 lbs, may be quoted at $5 50@5 75
Fifth Class—Including common and light stock hogs, averaging from 80 to 130 lbs, may be quoted at $4 25@5 00

SHEEP—This market has been overstocked all the week, and under unfavorable Eastern advices, prices declined 25@45c ⅌ 100 lbs. Considerable stock remains over unsold. We quote the market dull at $6 70@7 62½ for good to choice; $5@6 62½ for common to fair grades.

At the Shelby House the receipts of live stock during the week have been about equal to the demand. Prices unchanged with the market dull. We quote prices ranging from 6 to 7c for the best offered, and 5 to 6c for second grades; 4 to 5c for common and inferior. Heavy shipping will bring from 7 to 7¾c.

HOGS—But little change and the market continues dull, with prices ranging from $6 to $6 75, and a few have sold at a premium price.

At the Bourbon House the cattle market during the week was well supplied. Prices range about the same as the previous week, except good shipping cattle, and they are a shade higher. Prices range at 7½@8c for the best offerings, 6½@7c for good, 5½@6c for ordinary, and 3½@4½c for common and rough stock.

HOGS—The market has been well supplied, and prices are a little lower. Prices range from 6½@8c for good, well-fatted hogs, and 5½@6c for light stock.

SHEEP—The market has been well supplied. Good sheep sell at 4@4½c, gross weight. Good lambs sell at from $2 75@3 00 ⅌ head.

THE RIVER AND MATTERS ALONG THE WHARF.—The weather yesterday was changeable in the forenoon. It being very warm in the afternoon we had a number of showers. The Monongahela marks indicated eight feet. The Allegheny marks nine feet three inches and rising slowly. Another small coal fleet will leave on this water. Among them are the Lioness, Whale, Tom Farrow, and O. H. Ormsby. They will tow out 27 small barges containing 230,000 bushels, destined for Cincinnati. Others will leave, provided they can get ready in time. The Minnie left last evening for Cincinnati loaded to her utmost capacity. In fact she had to turn over a portion to the Importer who leaves in turn. The Leni Leoti, for Parkersburg, had a fair trip. The packet for this day is the steamer Grey Eagle, side wheel, leaving at noon. The fine packet Kenton is the only boat loading for New Orleans. She will go through without reshipping. The punctual packet Argosy leaves to-day for Cincinnati on time. Passengers and shippers can rely on this, so get ready or you will be left. St. Louis freights are becoming more plenty. The Minnie loaded very quick.

WE are indebted to the officers of the steamer Argosy for attentions to this office.

THE steamer R. C. Gray, Capt. Anderson, left Cincinnati for this port on Saturday.

THE steamer Leonora No. 2 is loading at Cincinnati for Nashville.

EVANSVILLE loads more boats than Louisville; "that's what's the matter."

THE CUMBERLAND RIVER.—On Saturday there was five feet six inches and rising on Harpeth Shoals.

CAPTAIN THOMAS SHERMAN arrived in Cincinnati on Monday.

CAPTAIN W. B. DUNLAP passed through Cincinnati on Sunday on his way home.

THE steamer Glendale passed Cairo on Friday; destination St. Louis.

P. McDONALD, fireman on the Great Republic, got drunk, fell and hurt himself badly, in St. Louis, a few days ago.

THE body of Chas. Felte, mate of the Friendship, who was drowned at St. Louis on the 22d, has been recovered.

CAPT. EDWARD EVANS, of the Westmoreland, left on yesterday's train for Cincinnati to load that packet for New Orleans.

CAPT. ALEX. McBRIDE, formerly of this city, is commanding the Iron City, which runs between St. Louis and the Tennessee river.

THE towboat George Thompson arrived from Pomeroy with a tow of 1,500 barrels of salt. This looks like carrying coal to New Castle.

THE Great Republic left Cairo with a fair trip. She is announced to leave New Orleans on Thursday.

BOATS IN PORT.—Gray Eagle, Delaware, Importer, America, Kate Putnam, Belle Vernon, Columbia, Kenton.

THE steamer Kate Robinson and Julia No. 2 were advertised to leave Cincinnati for this port on Monday, and the Belle on Tuesday.

THE fine packet Importer, Captain Noss, is announced for Cairo and St. Louis. This boat is in fine order and is in charge of careful and experienced officers.

BOATS IN PORT.—The following boats were in port at Louisville on Sunday: City Wharf—Cora S., Rose Hite, Pink Varole and Alice Vivian. Portland—Laurel Hill.

THE advertisement of Heathering & Bro., coal dealers will be found in our advertising columns. They propose to sell coal to steamboat men at six cents per bushel.

THE fine side-wheel packet Grey Eagle, Captain Brennan, takes her departure this day for Parkersburg and intermediate ports. Persons going that way will be well cared for.

THE punctual steamer Argosy, Captain Vandergrift, leaves to-day at noon for Cincinnati. The boat is No. 1 in every respect. The clerks are Messrs. Scott and W. H. Murphy—officers who have no superiors. We take pleasure in recommending them.

GLAD OF IT.—Our old friend Capt. S. Hemphill has taken charge of the office of the steamer Kenton. The Captain is one of the most accomplished officers that comes to this port. We are pleased to see him in the office of so fine a packet. Capt. Dunlap is one of those persons that understands his business.

SPECIAL NOTICE.—The fine packet Kenton will positively take her departure for Memphis and New Orleans on Tuesday. This day and to-morrow she will take freights for Cincinnati and Louisville. Captain Dunlap is noted for doing business on the square. We take pleasure in recommending boat and officers.

THE Allegheny River Packet Company will hereafter run two boats per week, leaving here every Tuesday and Friday at 3 P. M. The Echo No. 3, Capt. Gordon, left yesterday. The Ida Rees No. 2, Capt. Rees, will leave on Friday at 3 P. M. The Frinda is undergoing repairs.

SENSIBLE.—Capt. W. B. Dodson, one of our oldest steamboat men, has been appointed to the command of one of the government snag boats. He is now engaged in superintending the building of the necessary boats in course of construction at the Marine Ways New Albany.

THE tow boat Wild Duck and model barges Dove and Swan, left St. Louis for this port on Friday, with 800 tons of iron ore, and a large amount of fire clay and pot clay. Clay is becoming a very important article of exportation from Missouri. Thousands of barrels of it are shipped by the Ohio and to New Orleans.

SUNDAY'S LOUISVILLE DEMOCRAT ON THE SITUATION.—The river is still falling. Last evening there was nine feet three inches water in the canal, seven feet three inches in the chute and six feet three inches over the rocks on the falls. Business was rather brisk on the levee. The weather was warm and clear in the forenoon, but it clouded up and threatened rain in the afternoon.

UNFORTUNATE.—The St. Mary's, previous to her explosion, and when bound down to New Orleans, got badly aground at Fort Adams and was compelled to throw overboard 1,500 sacks of corn and oats to lighten her off, and in the meantime the Henry Ames came along and assisted her in getting into deep water.

ANOTHER RUN OF COAL.—The following towboats are loading and will leave on this rise for Cincinnati: Lioness, 7 barges containing 63,000 bushels; Tom Farrow, 7 barges, 60,000 bushels; O. H. Ormsby, 6 barges, 55,000 bushels, and Whale, 7 barges, 60,000 bushels. Number of barges, 27; bushels, 230,000. The barges were small, most of them not drawing over four feet six inches.

IMPORTANT IF TRUE.—It is stated that Mason, who was tried in Toronto and taken to Washington to give evidence in Surratt's case, can also throw light on other matters. He professes to know facts about the burning of steamers on the Mississippi between Cairo and Memphis in 1864, whereby the Government lost two million dollars. Paymasters' funds, says he was in the plot for the destruction thereof, but was never paid according to agreement.

THE following steamers were at Cincinnati on Monday: Major Anderson, W. F. Curtis, Emerald, Darling, Messenger, Silver Cloud, Mary Erwin, Lorena No. 2, Bertha, Camelia, Melnotte, Sherman, Julia No. 2, Maggie Hays, Charleston, Armadillo, Wauanita, Ezra Porter, Swallow, Nightingale, Champion, Lizzie Hopkins, Starlight, Peerless and R. R. Hudson.

PRETTY good for old times, but won't answer now: In the old flush times a passenger on a river boat accosted a little negro boy with an inquiry usual at that day: "Who do you belong to?" "Don't know, sir," answered the boy. "Why don't you know?" "When I come aboard I b'longs to Massa Sam White, but last night he went me on two little par, an' de clerk of the boat he win me. Den Kunnel Smiff he beat de clerk on a bluff, an' he had me last; so I dunno, massa, who I b'longs to till the game close."

JEFFERSONVILLE, IND., June 2, 7 P. M.—River rising with eight feet in the pass over the falls. Wind from the South. We had eight hours' rain last night. The steamers Sam. J. Hale, P. W. Strader, Spray and Rochester, passed down. The Kate Robinson, Clifton and Louisville passed up. The tow-boats Hercules and Collier arrived.

D. M. DRYDEN, Falls Pilot.

THE damage by the explosion of the nigger boiler of the St. Mary, at New Orleans, was more destructive than first appeared:

"It appears that the boiler is tubular, containing seven flues, and that previous to the explosion it had been filled with water to aid in cleaning out the other and main boilers. Just as it filled it exploded, and was blown through the larboard side of the boat, making kindling wood of it in its course.

"Peter Zeibald, first engineer, was badly scalded on the back and arms.

"Orloff P. Miller was slightly scalded. A colored man was struck on the head with a billet of wood, and was slightly hurt. No other casualties are reported.

"The nigger boiler was blown out of the St. Mary, over the stern of the Leonidas, lying next to her, into the afterpart of the ladies' cabin of the Ruth, entering at the top, lodging in the Ruth's cabin, cracking and breaking the joists of the cabin floor. The large chandelier in the ladies' cabin of the Ruth was destroyed.

"The whole larboard side of the St. Mary was literally torn to shreds. The base of the chimneys being torn away, both fell carrying with them the larboard boiler deck, and they lie now a wreck.

"The cause of the explosion is a mystery. The cry of powder was raised shortly after the explosion and a general stampede took place."
